**Precaution for Safe Handling and Use
In Case of Spill:**

Due to the osmotic and volatile nature, remove any possible sources of ignition immediately. For small amount, use suitable absorbent such as sand, sawdust, wess and exercise caution in collection, or immediately flush it out by large quantities of water.
 For large amount, block the flow by materials such as sand; lead it to a safe place to collect it into seal container as much as possible. Flush out the remaining portion of the spill by large quantities of water. In this case, need to make sure that the concentrated liquid would not be flown out into nearby rivers and other water bodies. Dispose in accordance with State and Federal regulations for flammable liquid.
