Version 4.1 (08/03/2021) - Page 1/9

TEMPERA A L'OEUF VERT PERMANENT - N131001.845

SAFETY DATA SHEET

(REACH regulation (EC) n° 1907/2006 - n° 2015/830)

SECTION 1 : IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1. Product identifier

Product name : TEMPERA A L'OEUF VERT PERMANENT Product code : N131001.845. UFI : Q6ME-KP7H-UR0F-PYQN

1.2. Relevant identified uses of the substance or mixture and uses advised against Paint for artist

1.3. Details of the supplier of the safety data sheet

Registered company name : MAX SAUER SAS. Address : 2 rue Lamarck, CS30204.22000.Saint Brieuc.FRANCE. Telephone : 00 33 (0)2 96 68 20 00. Fax : 00 33 (0)2 96 61 77 19. regulatory.affairs@raphael.fr

1.4. Emergency telephone number : +33 (0)1 45 42 59 59.

Association/Organisation : INRS / ORFILA http://www.centres-antipoison.net.

SECTION 2 : HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

In compliance with EC regulation No. 1272/2008 and its amendments.

Skin sensitisation, Category 1 (Skin Sens. 1, H317).

Hazardous to the aquatic environment - Chronic hazard, Category 3 (Aquatic Chronic 3, H412).

This mixture does not present a physical hazard. Refer to the recommendations regarding the other products present on the site.

2.2. Label elements

In compliance with EC regulation No. 1272/2008 and its amendments.

Hazard pictograms :

	\mathbf{v}				
	GHS07				
Signal Word :					
	WARNING				
	Product identifiers :				
	613-326-00-9	2-METHYLISOTHIAZOL-3(2H)-ONE			
	613-088-00-6	1,2-BENZISOTHIAZOL-3(2H)-ONE			
	613-167-00-5	REACTION MASS OF 5-CHLORO-2-METHYL-2H-ISOTHIAZOL-3-ONE AND			
		2-METHYL-2H-ISOTHIAZOL-3-ONE (3:1)			
	Hazard statements :				
	H317	May cause an allergic skin reaction.			
	H412	Harmful to aquatic life with long lasting effects.			
Precautionary statements - General :					
	P101	If medical advice is needed, have product container or label at hand.			
	P102	Keep out of reach of children.			
Precautionary statements - Prevention :					
	P261	Avoid breathing dust/fume/gas/mist/vapours/spray.			
	P272	Contaminated work clothing should not be allowed out of the workplace.			

SAFETY DATA SHEET (REGULATION (EC) n° 1907/2006 - REACH) Version 4.1 (08/ MAX SAUER SAS

TEMPERA A L'OEUF VERT PERMANENT - N131001.845

Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/
Specific treatment (see on this label).
Take off contaminated clothing and wash it before reuse.
Dispose of contents/container to

2.3. Other hazards

The mixture does not contain substances classified as 'Substances of Very High Concern' (SVHC) >= 0.1% published by the European CHemicals Agency (ECHA) under article 57 of REACH: http://echa.europa.eu/fr/candidate-list-table The mixture fulfils neither the PBT nor the vPvB criteria for mixtures in accordance with annexe XIII of the REACH regulations EC 1907/2006.

Information on ingredients :

[1] Substance for which maximum workplace exposure limits are available.

SECTION 4 : FIRST AID MEASURES

As a general rule, in case of doubt or if symptoms persist, always call a doctor.

NEVER induce swallowing by an unconscious person.

4.1. Description of first aid measures

In the event of splashes or contact with skin :

Remove contaminated clothing and wash the skin thoroughly with soap and water or a recognised cleaner.

Watch out for any remaining product between skin and clothing, watches, shoes, etc.

In the event of an allergic reaction, seek medical attention.

If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital.

In the event of swallowing :

Do not give the patient anything orally.

In the event of swallowing, if the quantity is small (no more than one mouthful), rinse the mouth with water and consult a doctor.

Seek medical attention immediately, showing the label.

4.2. Most important symptoms and effects, both acute and delayed

No data available.

4.3. Indication of any immediate medical attention and special treatment needed

No data available.

SECTION 5 : FIREFIGHTING MEASURES

Non-flammable.

5.1. Extinguishing media

5.2. Special hazards arising from the substance or mixture

A fire will often produce a thick black smoke. Exposure to decomposition products may be hazardous to health.

Do not breathe in smoke.

In the event of a fire, the following may be formed :

- carbon monoxide (CO)
- carbon dioxide (CO2)

5.3. Advice for firefighters

No data available.

SECTION 6 : ACCIDENTAL RELEASE MEASURES 6.1. Personal precautions, protective equipment and emergency procedures Consult the safety measures listed under headings 7 and 8. For non first aid worker Avoid any contact with the skin and eyes. For first aid worker First aid workers will be equipped with suitable personal protective equipment (See section 8). 6.2. Environmental precautions Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal. Prevent any material from entering drains or waterways. 6.3. Methods and material for containment and cleaning up Clean preferably with a detergent, do not use solvents. 6.4. Reference to other sections No data available. SECTION 7 : HANDLING AND STORAGE Requirements relating to storage premises apply to all facilities where the mixture is handled. Individuals with a history of skin sensitisation should not, under any circumstance, handle this mixture. 7.1. Precautions for safe handling Always wash hands after handling. Remove and wash contaminated clothing before re-using. Fire prevention : Prevent access by unauthorised personnel. Recommended equipment and procedures : For personal protection, see section 8. Observe precautions stated on label and also industrial safety regulations. Prohibited equipment and procedures : No smoking, eating or drinking in areas where the mixture is used. 7.2. Conditions for safe storage, including any incompatibilities No data available. Storage Keep out of reach of children. Packaging Always keep in packaging made of an identical material to the original. 7.3. Specific end use(s) No data available. SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION 8.1. Control parameters **Occupational exposure limits :** ACGIH TLV (American Conference of Governmental Industrial Hygienists, Threshold Limit Values, 2010) : Ceiling : CAS TWA : STEL : Definition : Criteria : 7727-43-7 10 mg/m3 56-81-5 10 mg/m3

8.2. Exposure controls

Personal protection measures, such as personal protective equipment

Pictogram(s) indicating the obligation of wearing personal protective equipment (PPE) :

Use personal protective equipment that is clean and has been properly maintained.

Store personal protective equipment in a clean place, away from the work area.

Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

- Eye / face protection

Avoid contact with eyes.

Use eye protectors designed to protect against liquid splashes

Before handling, wear safety goggles in accordance with standard EN166.

- Hand protection

Use suitable protective gloves that are resistant to chemical agents in accordance with standard EN374.

Gloves must be selected according to the application and duration of use at the workstation.

Protective gloves need to be selected according to their suitability for the workstation in question : other chemical products that may be handled, necessary physical protections (cutting, pricking, heat protection), level of dexterity required.

Type of gloves recommended :

- Natural latex
- Recommended properties :

- Impervious gloves in accordance with standard EN374

- Body protection

Avoid skin contact.

Wear suitable protective clothing.

Suitable type of protective clothing :

In the event of substantial spatter, wear liquid-tight protective clothing against chemical risks (type 3) in accordance with EN14605 to prevent skin contact.

In the event of a risk of splashing, wear protective clothing against chemical risks (type 6) in accordance with EN13034 to prevent skin contact.

Work clothing worn by personnel shall be laundered regularly.

After contact with the product, all parts of the body that have been soiled must be washed.

SECTION 9 : PHYSICAL AND CHEMICAL PROPERTIES

General information :	
Physical state :	Viscous liquid.
mportant health, safety and environmental inform	nation
pH :	Not stated.
	Slightly basic.
Boiling point/boiling range :	Not specified.
Flash Point :	101.00 °C.
Vapour pressure $(50^{\circ}C)$:	Not relevant.

14.5. Environmental hazards

-

14.6. Special precautions for user

SECTION 15 : REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

- Classification and labelling information included in section 2:

The following regulations have been used:

- EU Regulation No. 1272/2008 amended by EU Regulation No. 2020/217 (ATP 14)

- Container information:

The mixture is contained in packaging that does not exceed 125 ml.

- Particular provisions :

No data available.

- German regulations concerning the classification of hazards for water (WGK, AwSV vom 18/04/2017, KBws) : WGK 2 : Hazardous for water.

15.2. Chemical safety assessment

No data available.

SECTION 16 : OTHER INFORMATION

Since the user's working conditions are not known by us, the information supplied on this safety data sheet is based on our current level of knowledge and on national and community regulations.

The mixture must not be used for other uses than those specified in section 1 without having first obtained written handling instructions.

It is at all times the responsibility of the user to take all necessary measures to comply with legal requirements and local regulations.

The information in this safety data sheet must be regarded as a description of the safety requirements relating to the mixture and not as a guarantee of the properties thereof.

Wording of the phrases mentioned in section 3 :

H301	Toxic if swallowed.
H302	Harmful if swallowed.
H310	Fatal in contact with skin.
H311	Toxic in contact with skin.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H330	Fatal if inhaled.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
EUH071	Corrosive to the respiratory tract.
