LIQUITEX PROFESSIONAL ACRYLIC SATIN VARNISH

colart

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations. This Product is exempt from OSHA Hazard Communication Standard, safety information contained in the SDS is for information only. Issue date: 10/12/2022 Revision date: 10/12/2022 Supersedes: 10/25/2021 Version: 4.0

SECTION 1: Identification	
1.1. Identification	
Product form Trade name	: Mixture : LIQUITEX PROFESSIONAL ACRYLIC SATIN VARNISH
1.2. Recommended use and restrictions	s on use
Use of the substance/mixture Recommended use	 Artists', craft and hobby paints Consumer uses: Private households (= general public = consumers), Artists', craft and hobby paints
1.3. Supplier	
Distributor ColArt Americas Inc. 2 Corporate Place South, Piscataway New Jersey, USA NJ 08854 T +888-422-7954 r.enguiries@colart.co.uk	Manufacturer Colart France SAS 5, rue René Panhard, CS 82120 Z.I. Nord, 72021 Le Mans Cedex 2 T: +33 2 43 83 83 00 F: +33 2 43 83 83 09 r.enquiries@colart.co.uk
1.4. Emergency telephone number	
Emergency number	: +1-888-422-7954
SECTION 2: Hazard(s) identification	
2.1 Hazard warning in accordance with	US Labeling of Hazardous Art Materials Act / Federal Hazardous

2.1. Hazard warning in accordance with US Labeling of Hazardous Art Materials Act / Federal Hazardous Substances Act.

Art materials are labelled according to Labelling of Hazardous Art Materials Act (LHAMA) in compliance with ASDTM D-4236 and Federal Hazardous Substances Act (FHSA). Appropriate labelling is listed in section 15. Please note that the label may also contain other regional/national labelling text.

SECTION 3: Composition/Information on ingredients

3.2 **Mixtures**

Art materials are labelled according to Labeling of Hazardous Art Materials Act (LHAMA) in compliance with ASDTM D-4236 and Federal Hazardous Substances Act (FHSA). Appropriate labelling is listed in section 15. Hazardous ingredients are identified in section 15.

SECTION 4: First-aid measures	
4.1. Description of first aid measures	
First-aid measures general	: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation	: Allow affected person to breathe fresh air. Allow the victim to rest.
First-aid measures after skin contact	: Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse.
First-aid measures after eye contact	: Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists.
First-aid measures after ingestion	: Rinse mouth out with water. In all cases of doubt, or when symptoms persist, seek medical attention.
	Please see section 15 labelling requirements for additonal information

4.2. Most important symptoms and effects (acute and delayed)

Art materials are labelled according to Labeling of Hazardous Art Materials Act (LHAMA) in compliance with ASDTM D-4236 and Federal Hazardous Substances Act (FHSA).Please refer to section 15 for information on potential symptoms.

OSHA Hazard Communication Standard does not apply to art materials according to 29 CFR 1910.1200(b)(6). This Safety Data Sheet is provided for information only and details the appropriate safety labelling according to LHAMA and FHSA. The information contained in this MSDS does not comply with all requirements of the OSHA Hazard Communication Standard.

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations. This Product is exempt from OSHA Hazard Communication Standard, safety information contained in the SDS is for information only.

4.3. Immediate medical attention and special treatment, if necessary Treat symptomatically. SECTION 5: Fire-fighting measures 5.1. Suitable (and unsuitable) extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Specific hazards arising from the chemical Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighting water from entering environment. Protection during firefighting : Use water spray or fog for cooling exposed containers. Exercise caution when fighting othermical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory proteet SECTION 6: Accidental release measures 6.1. 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enter	ection.
Section S: Fire-fighting measures 5.1. Suitable (and unsuitable) extinguishing media Suitable extinguishing media : Foam. Dry powder. Carbon dioxide. Sand. Unsuitable extinguishing media : Do not use a heavy water stream. 5.2. Specific hazards arising from the chemical Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory prote SECTION 6: Accidental release measures 6.1. 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to severs and public waters. Notify authorities if liquid enters severs or public waters. 6.3. Methods and material for containme	ection.
5.1. Suitable (and unsuitable) extinguishing media : Foam. Dry powder. Carbon dioxide. Sand. Suitable extinguishing media : Do not use a heavy water stream. 5.2. Specific hazards arising from the chemical Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment protective equipment and emergency procedures 6.1.1. For non-emergency personnel Energency procedures Energency procedures : Equip cleanup crew with proper protection. Energency procedures : Ventilate area. 6.2. Environmental precautions Ventilate area. 6.3. Methods and material for containment and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to othe	ection.
Jusuitable extinguishing media : Do not use a heavy water stream. 5.2. Specific hazards arising from the chemical Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory prote SECTION 6: Accidental release measures State area 5.1. Personal precautions, protective equipment and emergency procedures S1.1. For non-emergency personnel Emergency procedures : Equip cleanup crew with proper protection. S1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. S2. Environmental precautions Prevent entry to severs and public waters. Notify authorities if liquid enters severs or public waters. S3. Methods and material for containment and cleaning up Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other mat	ection.
5.2. Specific hazards arising from the chemical Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory prote SECTION 6: Accidental release measures 5.1. 6.1. Personal precautions, protective equipment and emergency procedures 5.1.1. For emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Wethods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materi	ection.
Fire hazard : No fire hazard. Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective equipment, protective equipment, and emergency procedures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Wethods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possill spillage. Store away from other materials. 6.4. Reference to other sections Sec Heading 8. Exposure control	ection.
Reactivity : The product is non-reactive under normal conditions of use, storage and transport. 5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, including respiratory protective equipment and emergency procedures 6.1. For non-emergency personnel Energency procedures : Evacuate unnecessary personnel. 6.1.1. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possial spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. See Tion 7: Handling and storage	ection.
5.3. Special protective equipment and precautions for fire-fighters Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory prote SECTION 6: Accidental release measures 5.1. 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Wethods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possil spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage <td>ection.</td>	ection.
Firefighting instructions : Use water spray or fog for cooling exposed containers. Exercise caution when fighting chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective equipment, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Evacuate unnecessary personnel. 6.1.2. For emergency responders : Evacuate unnecessary personnel. 8.1.2. For emergency procedures : Ventilate area. 8.2. Environmental precautions : Ventilate area. 8.2. Environmental for containment and cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections : Soak up sp	ection.
Chemical fire. Prevent fire-fighting water from entering environment. Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protective SECTION 6: Accidental release measures S.1. Personal precautions, protective equipment and emergency procedures S.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. S.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. S.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. S.3. Methods and material for containment and cleaning up Wethods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. S.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	ection.
SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
6.1.1. For non-emergency personnel Emergency procedures : Evacuate unnecessary personnel. 6.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Wethods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Emergency procedures : Evacuate unnecessary personnel. 5.1.2. For emergency responders : Equip cleanup crew with proper protection. Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 5.2. Environmental precautions : Ventilate area. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 5.4. Reference to other sections : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. See Heading 8. Exposure controls and personal protection. : Section 7: Handling and storage	
S.1.2. For emergency responders Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. S.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. S.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. S.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Protective equipment : Equip cleanup crew with proper protection. Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Emergency procedures : Ventilate area. 6.2. Environmental precautions Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. 6.3. Methods and material for containment and cleaning up Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. 6.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. S.3. Store away from other materials. S.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
Methods for cleaning up : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possit spillage. Store away from other materials. S.4. Reference to other sections See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
spillage. Store away from other materials. S.4. Reference to other sections Gee Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	
See Heading 8. Exposure controls and personal protection. SECTION 7: Handling and storage	ble. Collect
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinkir smoking and when leaving work. Provide good ventilation in process area to prevent of vapor.	
7.2. Conditions for safe storage, including any incompatibilities	
Storage conditions : Keep only in the original container in a cool, well ventilated place away from : Direct s Heat sources. Keep container closed when not in use.	sunlight,
ncompatible products : Strong bases. Strong acids.	
ncompatible materials : Sources of ignition. Direct sunlight.	
SECTION 8: Exposure controls/personal protection	
3.1. Control parameters	
Additional information : There exist no exposure limits for this material	
3.2. Appropriate engineering controls	
3.3. Individual protection measures/Personal protective equipment	
OSHA Hazard Communication Standard does not apply to art materials according to 29 CFR 1910.1200(b)(6). This Safety Data Sheet is provided for inform and details the appropriate safety labelling according to LHAMA and FHSA. The information contained in this MSDS does not comply with all requirements of Hazard Communication Standard.	nation only

Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations. This Product is exempt from OSHA Hazard Communication Standard, safety information contained in the SDS is for information only.

Hand protection:

Avoid contact with skin

Eye protection:

Avoid contact with eyes

Respiratory protection:

No respiratory protection needed under normal use conditions

Other information:

Do not eat, drink or smoke during use. Ensure there is adequate ventilation.

SECTION 9: Physical and chemical p	roperties
9.1. Information on basic physical and cl	nemical properties
Physical state	: Liquid
	: White
Odor	: characeristic
Odor threshold	: No data available
pH	: >8
Melting point	: No data available
Freezing point	: No data available
Boiling point	: >100°C
Flash point	: No data available
Relative evaporation rate (butyl acetate=1)	: No data available
Flammability (solid, gas)	: Non flammable.
Vapor pressure	: No data available
Relative vapor density at 20 °C	: >1
Relative density	: 1.00-1.10 @ 20°C
Solubility	: Miscible with water
Partition coefficient n-octanol/water (Log Pow)	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosion limits	: No data available
Explosive properties	: No data available
Oxidizing properties	: No data available
9.2. Other information	

SECTION 10: Stability and reactivity		
10.1.	Reactivity	
The pro	oduct is non-reactive under normal conditions of use, storage and transport.	
10.2.	Chemical stability	
Stable	at ambient temperature and under normal conditions of use. Possibility of hazardous reactions	
None u	inder normal use.	
and deta	Hazard Communication Standard does not apply to art materials according to 29 CFR 1910.1200(b)(6). This Safety Data Sheet is provided for information only ails the appropriate safety labelling according to LHAMA and FHSA. Safety Data Sheet

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations. This Product is exempt from OSHA Hazard Communication Standard, safety information contained in the SDS is for information only.

10.4. Conditions to avoid
Direct sunlight. Extremely high or low temperatures.
10.5. Incompatible materials
Strong acids. Strong bases.
10.6. Hazardous decomposition products
Carbon monoxide. Carbon dioxide.
SECTION 11: Toxicological information
11.1. Information on toxicological effects
Art materials are labelled according to Labeling of Hazardous Art Materials Act (LHAMA) in compliance with ASDTM D-4236 and Federal Hazardous Substances Act (FHSA).Please refer to section 15 for information on toxicological effects.
SECTION 12: Ecological information
12.1. Toxicity
No additional information available
12.2. Persistence and degradability
LIQUITEX PROFESSIONAL ACRYLIC SATIN VARNISH
Persistence and degradability Not established.
12.3. Bioaccumulative potential
LIQUITEX PROFESSIONAL ACRYLIC SATIN VARNISH
Bioaccumulative potential Not established.
12.4. Mobility in soil
No additional information available
12.5. Other adverse effects
Other information : Avoid release to the environment.
SECTION 13: Disposal considerations
13.1. Disposal methods
Product/Packaging disposal recommendations : Dispose in a safe manner in accordance with local/national regulations.
Ecology - waste materials : Avoid release to the environment.
SECTION 14: Transport information
Department of Transportation (DOT)
In accordance with DOT
Not applicable
Transportation of Dangerous Goods
Not applicable
Transport by sea
Not applicable
Air transport
Not applicable

OSHA Hazard Communication Standard does not apply to art materials according to 29 CFR 1910.1200(b)(6).
