INDUSTRIA MAIMERI S.p.A. Revision nr.5 Date 14/03/2020 Printed 14/03/2020					
20445 - MAIMERI GOUACHE	20445 Bluish Violet	Printed on 18/03/2020 Page n. 1 / 8 Replaced revision:4 (Dated 11/03/2020)			
Information Sheet					
SECTION 1. Identification of the subs	tance/mixture and of the company/	undertaking			
1.1. Product identifier					
Code: Product name	20445 MAIMERI GOUACHE 20445 Bluish Violet				
1.2. Relevant identified uses of the substance or m	ixture and uses advised against				
Intended use	Guache colour.				
1.3. Details of the supplier of the safety data sheet					
Name Full address District and Country	INDUSTRIA MAIMERI S.p.A. Via Gianni Maimeri, 1 20060 Mediglia Italia Tel. +39 02 906981 Fax +39 02 90698999	(MI)			
e-mail address of the competent person responsible for the Safety Data Sheet	schedesicurezza@maimeri.it				
Product distribution by:	INDUSTRIA MAIMERI S.P.A. VIA G.MAIMERI 1 ITALY	20060 BETTOLINO DI MEDIGLIA (MI)			
1.4. Emergency telephone number					
For urgent inquiries refer to	Australia : 131126 USA: 1 800 222 1222 Regno Unito NHS Direct (UK): +44 (0) 845 46 47	,			
SECTION 2. Hazards identification					
2.1. Classification of the substance or mixture					
The product is not classified as hazardous pursuant amendments and supplements).	t to the provisions set forth in EC Regulation 1272/2	008 (CLP) (and subsequent			
Hazard classification and indication:					
2.2. Label elements					
Hazard pictograms:					
Signal words:					
Hazard statements:					
Precautionary statements:					
2.3. Other hazards					
On the basis of available data, the product does not	contain any PBT or vPvB in percentage greater than	n 0,1%.			
SECTION 3. Composition/information	n on ingredients				
3.2. Mixtures					
The product does not contain substances classified Regulation (EU) 1272/2008 (CLP) (and subsequent

20445 - MAIMERI GOUACHE

20445 Bluish Violet

SECTION 4. First aid measures

4.1. Description of first aid measures

Not specifically necessary. Observance of good industrial hygiene is recommended.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations. SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

EPY 9.10.3 - SDS 1004.13

Item Numbers: 00815-5390

20445 Bluish Violet

SECTION 7. Handling and storage ... / >>

20445 - MAIMERI GOUACHE

Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

Comply with the safety measures usually applied when handling chemical substances. HAND PROTECTION None required.

SKIN PROTECTION None required. EYE PROTECTION

None required.

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529. ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Properties		Value	Information
Appearance		paste	
Colour		BLUE VIOLET	
Odour		ARABIC GUM	
Odour threshold		Not applicable	
рН		Not applicable	
Melting point / freezing point		Not applicable	
Initial boiling point		Not available	
Boiling range		Not applicable	
Flash point	>	60 °C	
Evaporation Rate		Not applicable	
Flammability of solids and gases		not applicable	
Lower inflammability limit		Not applicable	
Upper inflammability limit		Not applicable	
Lower explosive limit		Not applicable	
Upper explosive limit		Not applicable	
Vapour pressure		Not applicable	
Vapour density		Not applicable	
Relative density		1,55	
Solubility		INSOLUBLE, DILUTE WITH WATER	
Partition coefficient: n-octanol/water		Not applicable	
Auto-ignition temperature		Not applicable	
Decomposition temperature		Not applicable	
Viscosity		20.000-28.000 cps	
Explosive properties		not applicable	
Oxidising properties		not applicable

SECTION 11. Toxicological information ... / >>

RESPIRATORY OR SKIN SENSITISATION

Does not meet the classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

STOT - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

SECTION 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

Information not available

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in soil

Information not available

12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

12.6. Other adverse effects

Information not available

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.
