EMERGENCY TELEPHONE NUMBER: +34 93 8332787 (9:00-17:00 h.) (working hours) 1.4

SECTION 2: HAZARDS IDENTIFICATION

2.1 CLASSIFICATION OF THE SUBSTANCE ORMIXTURE:

ition in accordance with Regulation (EC) No. 12

DANGER: Flam. Aerosoi 1:H222+H229 | Eye Irrit. 2:H319 | STOTSE (irrit.) 3:H335 | STOT SE (narcosis) 3:H336 | Aquatic Chronic 3:H412 | EUH066

Danger class	Classification of the mixture	Cat.	Routes of exposure	Targetorgans	Effects
Physicochemical: Human health: Environment:	Flam. Aerosol 1:H222+H229 Eye Irrit. 2:H319 STOT SE (irrit.) 3:H335 STOT SE (narcosis) 3:H336 Aquatic Chronic 3:H412 EUH066	Cat.1 Cat.2 Cat.3 Cat.3 Cat.3	- Eyes Inhalation Inhalation - Skin	Eyes Respiratory tract CNS - Skin	- Irritation Irritation Irritation Narcosis - Dryness, Cracking

Full text of hazard statements mentioned is indicated in section 16.

Note: When in section 3 a range of percentages is used, the health and environmental hazards describe the effects of the highest concentration of each component, but below the maximum value

ELEMENTS: 2.2

This product is labelled with the signal word DANGER in accordance with Regulation (EC) No. 1272/2008~605/2014 (CLP)

zard statements: H222

Extremely flammable aerosol.

H229 Pressurised container: may burst if heated.

H319 H335 Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness H336

H412

Harmful to aquatic life with long lasting effects. Repeated exposure may cause skin dryness or cracking. EUH066 Precautionary statements:

P101 If medical advice is needed, have product container or label at hand. P102

Keep out of reach of children. Read label before use. P103

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. P210 P211

P251 P264a Wash the hands thoroughly after handling. If eye irritation persists: Get medical attention. P337+P313 P271-P260d

Use only outdoors or in a well-ventilated area. Do not breathe spray.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor if you P304+P340-P312 feel unwell

P305+P351+P338-P310

P410+P412

P273-P501a

Supplementary statements:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Avoid release to the environment. Dispose of contents/container in accordance with local regulations.

Page 1 of 12 Item Numbers: 01466-1001, 01466-1002, 01466-1003

Hazardous ingredients:

Ethyl acetate

Isobutylmethylketone

Hydrocarbons C9 aromatics

2.3

Hazards which do not result in classification but which may contribute to the overall hazards of the mixture: Other physicochemical hazards: Vapours may form with air a mixture potentially flammable or explosive. Other adverse human health effects: No other relevant adverse effects are known.

Other negative environmental effects: Does not contain substances that fulfil the PBT/PVB criteria.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 SUBSTANCES

Not applicable (mixture).

3.2

This product is a mixture.
Chemical description:

Aerosol.

HAZARDOUS INGREDIENTS:
Substances taking part in a percentage higher than the exemption limit:

30 < 40 %	Dimethyl ether CAS: 115-10-6 , EC: 204-065-8 CLP: Danger: Flam. Gas 1:H220 Press. Gas:H280	Index No. 603-019-00-8 < REACH
25 < 30 %	Ethyl acetate CAS: 141-78-6, EC: 205-500-4 CLP: Danger: Flam. Liq. 2:H225 Eye Irrit. 2:H319 STOT SE (narcosis) 3:H336 EUH066	Index No. 607-022-00-5 < REACH / ATP01
5 < 10 %	Isobuty Imethy Iketone	Index No. 606-004-00-4 t.) < REACH / CLP00
5 < 10 %	Hydrocarbons, C9, aromatics (CAS: 64742-95-6), List No. 918-668-5 CLP: Danger: Flam. Liq. 3:H226 STOT SE (irrit.) 3:H335 STOT SE (n arcosis) 3:H336 As Tox. 1:H304 Aquatic Chronic 2:H411 EUH066	Autoclassified sp. < REACH
2,5 < 5 %	2-methoxy-1-methylethyl acetate CAS: 108-65-6, EC: 203-603-9 CLP: Warning: Flam. Liq. 3:H226	Index No. 607-195-00-7 < REACH / ATP01
1 < 2,5 %	Xylene (mixture of isomers) CAS: 1330-20-7, EC: 215-535-7 REACH: 01-2119488216-32 CLP: Danger: Flam. Liq. 3:H226 Acute Tox. (inh.) 4:H332 Acute Tox. (skin) 4:H312 Skin Irrit. 2:H315 Eye Irrit. 2:H319 STOT SE (irrit.) 3:H335 STOTRE 2:H373i Asp. Tox. 1:H30	Index No. 601-022-00-9 < REACH

Does not contain other components or impurities which will influence the classification of the product.

Stabilizers:

None

Reference to other sections:
For more information on hazardous ingredients, see sections 8, 11, 12 and 16.

SUBSTANCES OF VERY HIGH CONCERN (SVHC): List updated by ECHA on 27/06/2018.

ances SVHC subject to authorisation, included in Annex XIV of Regulation (EC) no. 1907/2006:

None

ubstances SVHC candidate to be included in Annex XIV of Regulation (EC) no. 1907/2006: None

PERSISTENT, BIOACCUMULABLE AND TOXIC PBT, OR VERY PERSISTENT AND VERY BIOACCUMULABLE VPVB SUBSTANCES: Does not contain substances that fulfil the PBT/vPvB criteria.

Page 2 of 12

In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830

MTN PRO ACRYLIC VARNISH Code: EX014PR0908

Date of compilation: 15/03/2017 Page 3 / 12

SECTION 4: FIRST AID MEASURES

DESCRIPTION OF FIRST-AID MEASURES: 4.1

Symptoms may occur after exposure, so that in case of direct exposure to the product, when in doubt, or when symptoms persist, seek recommended protective equipment if there is a possibility of exposure. Wear protective gloves when administering first aid.

Route of exposure	Symptoms and effects, acute and delayed	Description of first-aid measures
Inhalation:	Inhalation of solvent vapours may produce headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, unconsciousness. Inhalation produces irritation to mucus, coughing and breathlessness.	Remove the patient out of the contaminated area into the fresh air. If breathing is irregular or stops, administer artificial respiration. If the person is unconscious, place in appropriate recovery position. Keep the patient warm and at rest until medical attention arrives.
Skin:	Prolonged contact may cause skin dryness.	Remove immediately contaminated clothing. Wash thoroughly the affected area with plenty of cold or lukewarm water and neutral soap, or use a suitable skin cleanser. Do not use solvents or thinners.
Eyes:	Contact with the eyes produces redness and pain.	Remove contact lenses. Rinse eyes copiously by irrigation with plenty of clean, fresh water for at least 15 minutes, holding the eyelids apart, until the irritation is reduced. Call a physician immediately.
Ingestion:	If swallowed, may cause irritation of the throat, abdominal pain, drowsiness, nausea, vomiting and diarrhoea.	If swallowed, seek medical advice immediately and show container or label. Do not induce vomiting. Keep the patient at rest.

4.2

The main symptoms and effects are indicated in sections 4.1 and 11

INDICATION OF ANY IMMEDIATE MEDICAL ATTENTIONAND SPECIAL TREATMENT NEEDED:
Notes to physician: Treatment should be directed at the control of symptoms and the clinical condition of the patient.
Antidotes and contraindications: Specific antidote not known.

SECTION 5: FIRE-FIGHTING MEASURES

XTINGUISHING MEDIA

Extinguishing powder or CO2. In the case of more important fires, also alcohol resistant foam and water spray/mist. Do not use for extinguishing: direct water jet. Direct water jet may not be effective to extinguish the fire, since the fire may spread.

5.2 PECIAL HAZARDS ARISING FROM THE SUBSTANCE OR MIXTURE

Decomposes when heated intensely. Fire can produce a dense black smoke. As consequence of combustion or thermal decomposition, hazardous products may be produced: carbon monoxide, carbon dioxide, nitrogen oxides. Irritant. Exposure to combustion or decomposition products may be a hazard to health.

5.3

ADVICE FOR FIREFIGHTERS:
Special protective equipment: Depending on magnitude of fire, heat-proof protective clothing may be required, appropriate independent breathing apparatus, gloves, protective glasses or face masks and boots. If the fire-proof protective equipment is not available or is not being used, combat fire from a sheltered position or from a safe distance. The standard EN469 provides a basic level of protection for chemical incidents.

Other recommendations:

Cool with water the tanks, cisterns or containers close to sources of heat or fire. Bear in mind the direction of the wind. Do not

allow fire-fighting residue to enter drains, sewers or water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES: 6.1

Eliminate possible sources of ignition and when appropriate, ventilate the area. Do not smoke. Avoid dire a contact with this product. Avoid breathing vapours. Keep people without protection in opposition to the wind direction.

6.2 **ENVIRONMENTAL PRECAUTIONS:**

Avoid contamination of drains, surface or subterranean water and soil. In the case of large scale spills or when the product contaminates lakes, rivers or sewages, inform the appropriate authorities in accordance with local regulations.

6.3 METHODS AND MATERIAL FOR CONTAINMENT AND CLEANING UP:

Contain and mop up spills with non-combustible absorbent materials (earth, sand, vermiculite, diatomaceous earth, etc..). Keep the remains in a closed container

REFERENCE TO OTHER SECTIONS: 6.4

For contact information in case of emergency, see section 1.

For information on safe handling, see section 7. For exposure controls and personal protection measures, see section 8.

For waste disposal, follow the recommendations in section 13.

Page 3 of 12 Item Numbers: 01466-1001, 01466-1002, 01466-1003

Date of compilation: 15/03/2017 Page 4/12

MTN PRO ACRYLIC VARNISH Code: EX014PR0908

SECTION 7: HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING: 7.1

Comply with the existing legislation on health and safety at work.

Avoid any type of leakage or escape.

ations for the prevention of fire and explosion risks:

Pressurised container. Protect from sunlight and do not expose to temperature exceeding 50°C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material. Do not smoke.

Flash point

Autoignition temperature
Upper/lower flammability or explosive limits

-39* °C 316* °C 2.7*- 20.7* % Volume 25°C

Recommendations for the prevention of toxicological risks:

Do not eat, drink or smoke while handling. After handling, wash hands with soap and water. Avoid applying the product directly to people, animals, plants or foodstuffs. For exposure controls and personal protection measures, see section 8.

Recommendations for the prevention of environmental contamination:

Avoid any spillage in the environment. Pay special attention to the cleaning water. In the case of accidental spillage, follow the instructions indicated in section 6

7.2

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES:
Forbid the entry to unauthorized persons. Keep out of reach of children. This product should be stored isolated from heat and electrical sources. Do not

smoke in storage area. If possible, avoid direct contact with sunlight. Avoid extreme humidity on difons For more information, see section 10.

Class of storage

Maximum storage period

Iemperature interval

imaginary on difons For more information, see section 10.

According to current legislation.

6. months

imaginary on difons For more information, see section 10.

Class of storage

min: 5.°C, max: 50.°C (recommended).

Temperature interval Incompatible material

Keep away from oxidixing agents, from strongly alkaline and strongly acid materials.

According to current legislation.

Limit quantity (Seveso III): Directive 2012/18/EU:

Not applicable (product for non industrial use).

7.3

SPECIFIC END USES:
For the use of this product do not exist particular recommendations apart from that already indicated.

Page 4 of 12 Item Numbers: 01466-1001, 01466-1002, 01466-1003

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

ONTROL PARAMETERS 8.1

If a product contains ingredients with exposure limits, may be necessary a personnel monitoring, work place or biological, to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to EN689, EN14042 and EN482 standard concerning methods for assessing the exposure by inhalation to chemical agents, and exposure to chemical and biological agents. Reference should be also made to national guidance documents for methods for the determination of dangerous substances.

OCCUPATIONAL EXPOSURE LIMIT VALUES (TLV)

AGCIH 2014	<u>Year</u>	TLV-TWA		TLV-STEL		Remarks
Discoulated at the sign		ppm	mg/m3	ppm	mg/m3	D d. d
Dimethyl ether		1000.	1920.	-	-	Recommended
Ethyl acetate	1996	400.	1440.	-	-	
Isobutylmethylketone	1981	50.	205.	75.	307.	
Hydrocarbons C9 aromatics		50.	290.	-	-	Internal value
2-methoxy-1-methylethyl acetate		50.	275.	100.	550.	Recommended
						Skin
Xylene (mixture of isomers)	1996	100.	434.	150.	651.	A4

TLV - Threshold Limit Value, TWA - Time Weighted Average, STEL - Short Term Exposure Limit.

Skin - Danger of cutaneous absorption.

A4 - Non classified as carcinogenic in humans.

Dermal (Vd): Means that, in exposures to this substance, the contribution by the cutaneous route, including the mucous membranes and eyes, may result significant for the overall body content if no measures are taken to prevent absorption. There are some chemicals for which dermal absorption, both in liquid and vapour phases, can be very high, and this route of entry may be or equal or greater importance even that inhalation pathway. In these situations, the use of a biological control is essential in order to quantify the overall amount of contaminant absorbed.

BIOLOGICAL LIMIT VALUES: Not available

DERIVED NO-EFFECT LEVEL (DNEL):
Derived no-effect level (DNEL) is a level of exposure that is considered safe, derived from toxicity data according to specific guidances included in REACH.
DNEL values may differ from a occupational exposure limit (OEL) for the same chemical. OEL values may come recommended by a particular company, a government regulatory agency or an organization of experts. Although considered protective of health, the OEL values are derived by a process different of REACH.

(-) - PNEC not available (without data of registration REACH).

(c) - FINEC floravaliable (will out data of registration REACH).

uvcb - The substance has an unknown or variable composition (UVCB). The conventional methods to derive the PNEC are not appropriate and it is not possible to identify a single PNEC representative for these substances, and therefore not used in calculations for risk assessment.

8.2 **EXPOSURE CONTROLS:**

ENGINEERING MEASURES:

Provide adequate ventilation. Where reasonably practicable, this should be achieved by the use of local exhaust ventilation and good general extraction. If these measures are not sufficient to maintain concentrations of particulates and vapours below the Occupational Exposure Limits, suitable respiratory protection must be worn.

Protection of respiratory system: Avoid the inhalation of vapours.

Protection of eyes and face: It is recommended to install water taps or sources with clean water close to the working area.

Protection of hands and skin: It is recommended to install water taps or sources with clean water close to the working area. Barrier creams may help to protect the exposed areas of the skin. Barrier creams should not be applied once exposure has occurred.

OCCUPATIONAL EXPOSURE CONTROLS: Directive 89/686/EEC-96/58/EC: As a general measure on prevention and safety in the work place, we recommend the use of a basic personal protection equipment (PPE), with the corresponding EC marking. For more information on personal protective equipment (storage, use, cleaning, maintenance, type and characteristics of the PPE, protection class, marking, category, CEN norm, etc..), you should consult the informative brochures provided by the manufacturers of PPE.

Mask:	Suitable combined filter mask for gases, vapours and particles (EN14387/EN143). Class 1: low capacity up to 1000 ppm, Class 2: medium capacity up to 5000 ppm, Class 3: high capacity up to 10000 ppm. In order to obtain a suitable protection level, the filter class must be selected depending on the type and concentration of the contaminating agents present, in accordance with the specifications supplied by the filter producers. The respiratory equipment with filters does not work satisfactorily when the air contains high concentrations of vapour or oxygen content less than 18% in volume.
Safety goggles:	Safety goggles with suitable lateral protection (EN166). Clean daily and disinfect at regular intervals in accordance with the instructions of the manufacturer.
Face shield:	No.
Gloves:	Gloves resistant against chemicals (EN374). There are several factors (for example, temperature), they do in practice the period of use of a protective gloves resistant against chemicals is clearly lower than the established standard EN374. Due to the wide variety of circumstances and possibilities, the instructions/specifications provided by the glove supplier should be taken into account. Use the proper technique of removing gloves (without touching glove's outer surface) to avoid contact of the product with the skin. The gloves should be immediately replaced when any sign of degradation is noted.
Boots:	No.
Apron:	No.
Clothing:	Advisable.

Thermal hazards

Not applicable (the product is handled at room temperature).

ENVIRONMENTAL EXPOSURE CONTROLS:
Avoid any spillage in the environment. Avoid any release into the atmosphere.

Page 6 of 12 Item Numbers: 01466-1001, 01466-1002, 01466-1003

In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830

MTN PRO ACRYLIC VARNISH Code: EX014PR0908

Date of compilation: 15/03/2017 Page 7/12

Spills on the soil: Prevent contamination of soil.

Spills in water: Harmful to aquatic organisms. May cause long-term adverse effects on the aquatic environment. Do not allow to escape into drains, sewers or water courses.

- Water Management Act: This product does not contain any substance included in the list of priority substances in the field of water policy under Directive

2000/60/EC~2013/39/EU.

Emissions to the atmosphere: Because of volatility, emissions to the atmosphere while handling and use may result. When possible, avoid solvent release to the atmosphere; do not pulverize more than is strictly necessary.

- VOC (industrial installations): If this product is used in an industrial installation, it must be verified if it is applicable the Directive 2010/75/EC, on the limitation of emissions of volatile compounds due to the use of organic solvents in certain activities and installations: Solvents: 84.6% Weight, VOC (supply): 84.6% Weight, VOC: 49.4% C (expressed as carbon), Molecular weight (average): 74.7, Number C atoms (average): 3.6.

	(supply): 84.6% Weight, VOC: 49.4% C (expressed as carbon), Molecular weight (average): 74.7, Number C atoms (average): 3.6.

| INFORMATION ON LIKELY ROUTES OF EX POS URE : Acute toxicity:

IN ORM CHOIL STREET	Extr G G G T LE 17 T G G T G T	troity.	
Routes of exposure	Acute toxicity	Cat.	Main effects, acute and/or delayed
Inhalation: Not classified	ATE > 20000 mg/m3	-	Not classified as a product with acute toxicity if inhaled (based on available data, the classification criteria are not met).
Skin: Not classified	ATE > 2000 mg/kg	-	Not classified as a product with acute toxicity in contact with skin (based on available data, the classification criteria are not met).
Eyes: Not classified	Not available	-	Not classified as a product with acute toxicity by eye contact (lack of data).
Ingestion: Not classified	ATE > 5000 mg/kg	-	Not classified as a product with acute toxicity if swallowed (based on available data, the classification criteria are not met).

CORROSION/IRRITATION/SENSITISATION:

SOURCE OF THE PROPERTY OF THE					
Danger class	Target organs	Cat.	Main effects, acute and/or delayed		
Respiratory corrosion/irritation:	Respiratory tract	Cat.3	IRRITANT: May cause respiratory irritation.		
Skin corrosion/irritation: Not classified	-	-	Not classified as a product corrosive or irritant in contact with skin (based on available data, the classification criteria are not met).		
Serious eye damage/irritation:	Eyes	Cat.2	IRRITANT: Causes serious eye irritation.		
Respiratory sensitisation: Not classified	-	-	Not classified as a product sensitising by inhalation (based on available data, the classification criteria are not met).		
Skin sensitisation: Not classified	-	-	Not classified as a product sensitising by skin contact (based on available data, the classification criteria are not met).		

ASPIRATION HAZARD:

Danger class	Target organs	Cat.	Main effects, acute and/or delayed
Aspiration hazard: Not classified	-	-	Not applicable.

Item Numbers: 01466-1001, 01466-1002, 01466-1003 Page 8 of 12

		a		
SPECIFIC TARGET ORGANS T	OXICITY (STOT)	: Single exposure (SE) and/or Repeated	exposure (RE):

or Earlie Wittee Textority Condition (CE) and or the peaded expedition (CE).				
Effects	SE/RE	Target organs	Cat.	Main effects, acute and/or delayed
Cutaneous:	RE	Skin	-	DEFATTENING: Repeated exposure may cause skin dryness or cracking.
Neurological:	SE	CNS	Cat.3	NARCOSIS: May cause drowsiness or dizziness if inhaled.

CMR EFFECTS:

Carcinogenic effects: It is not considered as a carcinogenic product.

Genotoxicity: It is not considered as a mutagenic product.

Toxicity for reproduction: Does not harm fertility. Does not harm the unborn child.

Effects via lactation: Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WELL AS CHRONIC EFFECTS FROM SHORT AND LONG-TERM EXPOSURE:

Routes of exposure: May be absorbed by inhalation of vapour, through the skin and by ingestion.

Short-term exposure: Exposure to solvent vapour concentrations in excess of the stated occupational exposure limit, may result in adverse health

effects, such as mucous membrane and respiratory system irritation and adverse effects on kidneys, liver and central nervous system. Liquid splashes in the eyes may cause irritation and reversible damage. If swallowed, may cause irritation of the throat, other effects may be the same as described in the exposure to vapours.

Long-term or repeated exposure: Repeated or prolonged contact may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin. Repeated exposure may cause skin dryness or cracking.

INTERACTIVE EFFECTS:

Not available.

INFORMATION ABOUT TOXICOCINE TICS, METABOLISM AND DISTRIBUTION:

Dermal absorption

This preparation contains the following substances for which dermal absorption can be very high: 2-methoxy-1-methylethyl acetate.

Basic toxicokinetics: Not available.

ADDITIONAL INFORMATION: Not available.

SECTION 12: ECOLOGICAL INFORMATION

No experimental ecotoxicological data on the preparation as such is available. The ecotoxicological classification for these mixture has been carried out by using the conventional calculation method of the Regulation (EC) No. 1272/2008~605/2014 (CLP).

121	TOXICITY:

Xylene (mixture of isomers)	2620.	~ 52. ~ 81. ~ 88.	Easy

Note: Biodegradability data correspond to an average of data from various bibliographic sources.

SAFETY DATA SHEET (REACH)

In accordance with Regulation (EC) No. 1907/2006 and Regulation (EU) No. 2015/830

Date of compilation: 15/03/2017 Page 10 / 12

SECTION 13: DISPOSAL CONSIDERATIONS

Endocrine disrupting potential: Not available.

131

WASTE TREATMENT METHODS: Directive 2008/98/EC~Regulation (EU) no. 1357/2014:
Take all necessary measures to prevent the production of waste whenever possible. Analyse possible methods for revaluation or recycling. Do not discharge into drains or the environment, dispose at an authorised waste collection point. Waste should be handled and disposed in accordance with current local and national regulations. For exposure controls and personal protection measures, see section 8.

Directive 94/62/EC~2005/20/EC, Decision 2000/532/EC~2014/955/EU: Disposal of empty containers:

Emptied containers and packaging should be disposed in accordance with currently local and national regulations. The classification of packaging as hazardous waste will depend on the degree of empting of the same, being the holder of the residue responsible for their classification, in accordance with Chapter 15 01 of Decision 2000/532/EC, and forwarding to the appropriate final destination. With contaminated containers and packaging, adopt the same measures as for the product in itself. Ensure the container is completely empty before throwing it away.

<u>Procedures for neutralising or destroying the product:</u> In accordance with local regulations. Do not incinerate closed containers.

SECTION 15: REGULATORY INFORMATION

Not applicable.

Ensure adequate ventilation.

EU SAFETY, HEALTH AND ENVIRONMENTAL REGULATIONS/LEGISLATION SPECIFIC 15.1

The regulations applicable to this product generally are listed throughout this Safety Data Sheet.

TRANSPORT IN BULK ACCORDING TO ANNEX II OF MARPOL 73/78 AND THE IBC CODE:

Restrictions on manufacture, placing on market and use: See section 1.2

Tactile warning of danger: Not applicable (the classification criteria are not met).

Child safety protection: Not applicable (the classification criteria are not met).

Specific legislation on aerosols

It is applicable the Directive 75/324/EEC~2013/10/EU, relating to aerosol dispensers and the Directive 87/404/EEC, concerning simple preasure packages.

Ensure that persons transporting the product know what to do in case of accident or spill. Always transport in closed containers that are upright and secure.

OTHER REGULATIONS:

Control of the risks inherent in major accidents (Seveso III): See section 7.2

Other local legislations

The receiver should verify the possible existence of local regulations applicable to the chemical

15.2 CHEMICAL SAFETY ASSESSMENT: A chemical safety assessment has not been carried out for this mixture.

Page 11 of 12 Item Numbers: 01466-1001, 01466-1002, 01466-1003

SECTION 16: OTHER INFORMATION

TEXT OF THE PHRASES AND NOTES REFERENCED IN SECTIONS 2 AND/OR 3:

Hazard statements according the Regulation (EC) No. 1272/2008-605/2014 (CLP), Annex III:
H220 Extremely flammable gas. H225 Highly flammable liquid and vapour. H226 Flammable liquid and vapour. H280 Contains gas under pressure: may explode if heated. H304 May be fatal if swallowed and enters airways. H312 Harmful in contact with skin. H315 Causes skin irritation. H319 Causes serious eye irritation. H332 Harmful if inhaled. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H411 Toxic to aquatic life with long lasting effects. EUH066 Repeated exposure may cause skin dryness or cracking. H373i May cause damage to organs through prolonged or repeated exposure if inhaled.

ADVICES ON ANY TRAINING APPROPRIATE FOR WORKERS:
It is recommended for all staff that will handle this product to carry out a basic training in occupational risk and prevention, in order to provide understanding and interpretation of Safety Data Sheets and labelling of products as well.

AFETY DATA SHEET REGULATIONS

Safety Data Sheet in accordance with Article 31 of Regulation (EC) No. 1907/2006 (REACH) and Annex of Regulation (EU) No. 2015/830.

HISTORIC: Version: 1 Date of compilation: 15/03/2017

The information of this Safety Data Sheet, is based on the present state of knowledge and on current UE and national laws, as the users' working conditions are beyond our knowledge and control. The product is not to be used for other purposes than those specified, without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and legislation. The information in this Safety Data Sheet is meant as a description of the safety requirements of the product and it is not to be considered as a guarantee of the product's properties.
