INDUSTRIA MAIMERI S.P.A.

03285 - CLASSICO OIL COLOURS

03285 Vermilion Deep (Hue)

Revision nr.38 Dated 29/07/2022 Printed on 14/07/2023 Page n. 1 / 8 Replaced revision:37 (Dated 05/12/2019)

	Information Sheet
SECTION 1. Identification of the sub	stance/mixture and of the company/undertaking
1.1. Product identifier	
Code: Product name	03285 CLASSICO OIL COLOURS 03285 Vermilion Deep (Hue)
1.2. Relevant identified uses of the substance or	nixture and uses advised against
Intended use	Artistic oil color - Other uses are not recommended unless an assessment is carried out before the start of new use which shows that the risk is controlled.
1.3. Details of the supplier of the safety data shee	t
Name Full address	INDUSTRIA MAIMERI S.P.A. Via Gianni Maimeri, 1
District and Country	20076 Mediglia (MI) Italia Tel. +39 02 906981
e-mail address of the competent person responsible for the Safety Data Sheet	Fax +39 02 90698999 schedesicurezza@maimeri.it
Supplier:	INDUSTRIA MAIMERI S.P.A. VIA G.MAIMERI 1 20076 BETTOLINO DI MEDIGLIA (MI) ITALY
1.4. Emergency telephone number	
For urgent inquiries refer to	Australia : 131126 USA: 1 800 222 1222 Regno Unito NHS Direct (UK): +44 (0) 845 46 47
SECTION 2. Hazards identification	
2.1. Classification of the substance or mixture	
	nt to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent
amendments and supplements).	
amendments and supplements).	
amendments and supplements). Hazard classification and indication:	
amendments and supplements). Hazard classification and indication: 2.2. Label elements	
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms:	
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words:	
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words: Hazard statements:	
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words: Hazard statements: Precautionary statements: 2.3. Other hazards	ot contain any PBT or vPvB in percentage ≥ than 0,1%.
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words: Hazard statements: Precautionary statements: 2.3. Other hazards On the basis of available data, the product does not	ot contain any PBT or vPvB in percentage ≥ than 0,1%. locrine disrupting properties in concentration ≥ 0.1%.
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words: Hazard statements: Precautionary statements: 2.3. Other hazards On the basis of available data, the product does not	locrine disrupting properties in concentration $\geq 0.1\%$.
amendments and supplements). Hazard classification and indication: 2.2. Label elements Hazard pictograms: Signal words: Hazard statements: Precautionary statements: 2.3. Other hazards On the basis of available data, the product does not contain substances with end	locrine disrupting properties in concentration $\geq 0.1\%$.

EN f 8

03285 - CLASSICO OIL COLOURS

03285 Vermilion Deep (Hue)

3.2. Mixtures

The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and supplements) in such quantities as to require the statement.

SECTION 4. First aid measures

4.1. Description of first aid measures

Not specifically necessary. Observance of good industrial hygiene is recommended.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2. Special hazards arising from the substance or mixture

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3. Advice for firefighters

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations. SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions

The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up

Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

Page 2 of 8

EN f 8

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities

Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s)

Information not available

SECTION 8. Exposure controls/personal protection

8.1. Control parameters

Information not available

8.2. Exposure controls

Comply with the safety measures usually applied when handling chemical substances.

HAND PROTECTION None required. SKIN PROTECTION None required. EYE PROTECTION None required.

RESPIRATORY PROTECTION

If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type A filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required.

Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited.

If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529. ENVIRONMENTAL EXPOSURE CONTROLS

The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Properties		Value	Information
Appearance		paste	
Colour		dark red	
Odour		LINSEED OIL	
Odour threshold		not applicable	
Melting point / freezing point		not applicable	
Initial boiling point		not available	
Boiling range		not applicable	
Flammability		not applicable	
Lower explosive limit		not applicable	
Upper explosive limit		not applicable	
Flash point	>	60 °C	
Auto-ignition temperature		not applicable	
Decomposition temperature		not applicable	
Ha		not applicable	
Kinematic viscosity		not available	
Dynamic viscosity		3.500.000-4.500.000 cps

SECTION 9. Physical and chemical properties	s/>>		
Solubility	INSOLUBLE, DILUTE WIT	н	
Partition coefficient: n-octanol/water	WHITE SPIRIT not applicable		
Vapour pressure	not applicable		
Density and/or relative density	1,57		
Relative vapour density Particle characteristics	not applicable not applicable		
9.2. Other information			
9.2.1. Information with regard to physical hazard cla	asses		
Information not available			
9.2.2. Other safety characteristics			
Evaporation rate	not applicable		
VOC (Directive 2010/75/EU)	0,18 % - 2,79	g/litre	
VOC (volatile carbon)	0,18 % - 2,79	g/litre	
Explosive properties Oxidising properties	not applicable not applicable		
SECTION 10. Stability and reactivity			
10.1. Reactivity			
There are no particular risks of reaction with other s	ubstances in normal condition	ns of use.	
10.2. Chemical stability			
The product is stable in normal conditions of use an	nd storage.		
10.3. Possibility of hazardous reactions			
No hazardous reactions are foreseeable in normal o	conditions of use and storage		
10.4. Conditions to avoid			
None in particular. However the usual precautions u	used for chemical products sh	ould be respected.	
10.5. Incompatible materials			
Information not available			
10.6. Hazardous decomposition products			
Information not available			

Information not available

SECTION 11. Toxicological information

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Metabolism, toxicokinetics, mechanism of action and other information

Information not available

Information on likely routes of exposure

Information not available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Information not available

Interactive effects

Information not available

ACUTE TOXICITY

ATE (Inhalation) of the mixture: ATE (Oral) of the mixture: ATE (Dermal) of the mixture: Not classified (no significant component) Not classified (no significant component) Not classified (no significant component)

SKIN CORROSION / IRRITATION

Does not meet the classification criteria for this hazard class

SERIOUS EYE DAMAGE / IRRITATION

Does not meet the classification criteria for this hazard class

RESPIRATORY OR SKIN SENSITISATION

Does not meet the classification criteria for this hazard class

GERM CELL MUTAGENICITY

Does not meet the classification criteria for this hazard class

CARCINOGENICITY

Does not meet the classification criteria for this hazard class

REPRODUCTIVE TOXICITY

Does not meet the classification criteria for this hazard class

STOT - SINGLE EXPOSURE

Does not meet the classification criteria for this hazard class

STOT - REPEATED EXPOSURE

Does not meet the classification criteria for this hazard class

ASPIRATION HAZARD

Does not meet the classification criteria for this hazard class

11.2. Information on other hazards

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with human health effects under evaluation.

SECTION 12. Ecological information

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

12.1. Toxicity

Information not available

12.2. Persistence and degradability

Information not available

12.3. Bioaccumulative potential

Information not available

12.4. Mobility in soil

SECTION 12. Ecological information ... / >>

Information not available

12.5. Results of PBT and vPvB assessment

On the basis of available data, the product does not contain any PBT or vPvB in percentage \geq than 0,1%.

12.6. Endocrine disrupting properties

Based on the available data, the product does not contain substances listed in the main European lists of potential or suspected endocrine disruptors with environmental effects under evaluation.

12.7. Other adverse effects

Information not available

SECTION 13. Disposal considerations

13.1. Waste treatment methods

Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

14.1. UN number or ID number

not applicable

14.2. UN proper shipping name

not applicable

14.3. Transport hazard class(es)

not applicable

14.4. Packing group

not applicable

14.5. Environmental hazards

not applicable

14.6. Special precautions for user

not applicable

14.7. Maritime transport in bulk according to IMO instruments

Note for users:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property. The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.

CALCULATION METHODS FOR CLASSIFICATION

Chemical and physical hazards: Product classification derives from criteria established by the CLP Regulation, Annex I, Part 2. The data for evaluation of chemical-physical properties are reported in section 9.

Health hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 3, unless determined otherwise in Section 11.

Environmental hazards: Product classification is based on calculation methods as per Annex I of CLP, Part 4, unless determined otherwise in Section 12.
