SAFETY DATA SHEET

1. Product and Company Identification

Product Name: Matte Product Code: 10006 Product Type: Aerosol Product Use: Art Material

Distributed by: Creative Art Materials Ltd		Revision Date: 3/26/2019	
Address:	1214 River Hwy	Emergency Phone: 1-800-255-3924	
	Mooresville, NC 28117	Phone : (704) 664-1427	

NOTE: The information contained herein is accurate to the best of our knowledge. We do not suggest or guarantee that any hazards listed herein are the only ones which exist. We provide this information as guidance for providing personal protection to your employees. The user has the sole responsibility to determine the suitability of the materials for any use and the manner of use contemplated. The user must meet all applicable safety and health standards. We provide this information as guidance for providing personal protection to your employees.

2. Hazard Identification

Classification of substance or mixture:

Flammable Aerosols	Category 1
Gases Under Pressure	Liquefied Gas
Carcinogenicity	Category 1
Skin Irritation	Category 2,
Toxic to Reproduction	Category 1
Germ Cell Mutagenicity	Category 1
Eye damage/irritation	Category 2A
Specific target organ toxicity	
single exposure	Category 3 (Central nervous system)
Aspiration hazard	Category 1
-	

GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)

- Hazard Statement(s) H222 Extremely flammable aerosol
- H280 Contains gas under pressure; may explode if heated.
- H350 May cause cancer
- H315 Causes Skin irritation
- H319 Causes serious eye damage.
- H360 May damage fertility or the unborn child

Print Date: 11/3/20 Total pages: Page 2 of 9

Product Name: Matte 10006 Product Code: 06-955-12

- H340 May cause genetic defects
- H336 May cause drowsiness or dizziness
- H304 May be fatal if swallowed and enters airways
- H302 Harmful if swallowed

Precautionary Statements:

Prevention

P201	Obtain special instructions before use.
P202	Do not handle until all safety precautions have been read and understood
P281	Use personal protective equipment as required.
P210	Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source
P251	Pressurized container: Do not pierce or burn, even after use.
P261	Avoid breathing dust/fume/ gas/mist/vapours/spray.
P264	Wash thoroughly after handling.
P272	Contaminated work clothing should not be allowed out of the workplace.
P271	Use only outdoors or in a well-ventilated area.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
Response	
P304+P340	If Inhaled: Remove victim to fresh air and keep comfortable for breathing.
P312	Call a poison center/doctor/if you feel unwell.
P301+P310	If swallowed: Immediately call a poison center or doctor/physician.
P331	Do not induce vomiting
P302+P352	If on skin: wash with plenty of water and soap.
P333+P313	If skin irritation occurs: Get medical advice/attention.
P362	Take off contaminated clothing and wash before reuse.
P305+P351+	
P338	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
P337+P313	If eye irritation persists: Get medical advice/attention.
P308+P313	If exposed or concerned: Get medical attention.

Storage and Disposal

P405	Store locked up
P403	Store in a well ventilated place.
P410+P412	Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
P501	Dispose of contents/container in accordance with local/regional regulations.

3. Composition information on ingredients

Ingredients	CAS #	Percent
Liquefied Petroleum Gas	68476-86-8	10-30 %
Acetone	67-64-1	30-50%
Xylenes (o-, m-, p-isomers)	133020.7	5-10%
Isopropyl acetate	108-21-4	5-10%
Diacetone Alcohol	123-42-2	2-10%
2-Pentanone, 4-methy-	108-10-1	1-5%
Methyl ethyl ketone	78-93-3	1-5%
n-Amyl acetate	628-63-7	1-5%

Print Date: 11/3/20 Total pages: Page 3 of 9

Ethylbenzene	100-41-4	.1-1%
2-Methybutyl acetate	624-41-9	.5-4%
Nitrocellulose	9007-70-0	.5-4%
Isopropyl alcohol	67-63-0	.5-4%

4. First Aid Measures

Eye Contact:

Flush with warm water for 15 minutes. Seek medical attention.

Skin Contact:

Wash with soap and water. Remove any contaminated clothing and launder before reusing. If irritation persists, seek medical attention.

Inhalation:

Remove exposed individual to fresh air, protecting yourself. Restore breathing if necessary. Contact a physician.

Ingestion:

Do not induce vomiting. Get medical attention immediately. DO NOT GIVE AN UNCONCIOUS OR CONVULSING PERSON ANYTHING BY MOUTH!

5. Fire Fighting Measures

Flash Point: Flash point of propellant <0 degrees F.

Flammable limits in air, % by volume:

Upper:	9.5 (VOL.) Gas in air (propellant portion)
Lower:	1.8 % (VOL.) Gas in air (propellant portion)

Extinguishing Media:

Dry chemical, carbon dioxide, halon, or foam is recommended. Water spray may be used to cool containers or structures. Halon may decompose into toxic materials and carbon dioxide will displace oxygen, take proper precautions when using these materials.

Unusual Fire & Explosion Hazards:

This material may be ignited by extreme heat, sparks, flames or other ignition sources (static electricity). Vapors are heavier than air and will collect in low areas (sewers) or travel considerable distances. If containers are not cooled in a fire, they may rupture and ignite.

Special Fire Fighting Procedures:

At elevated temperatures (over 130F) aerosol container may burst, vent or rupture; use equipment or shielding to protect personnel. Cooling exposed containers with streams of water may be helpful. Emergency responders should wear self-contained breathing apparatus. Wear other protective gear as conditions warrant. Keep unauthorized people out and try to contain spills or leaks if it can be done safely. Material will float on water, avoid spreading the fire.

6. Accidental Release Measures

Spill or Leak Instructions

Contain spill with dikes of soil or nonflammable absorbent to minimize contaminated area. Avoid run-off

Print Date: 11/3/20 Total pages: Page 4 of 9

into storm sewers and ditches leading to waterways. If required, notify state and local authorities. Place leaking containers in well-ventilated area. Clean up small spills by using a nonflammable absorbent or flushing sparingly with water. Contain larger spills with nonflammable diking or absorbent. Clean up by vacuuming or sweeping.

Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind; keep out of low areas. Assess the spill situation, as the spill may not evolve large amounts of hazardous airborne contaminants in many outdoor spill situations. It may be advisable in some cases to simply monitor the situation until spilled product is removed.

7. Handling and Storage

Handling:

Store below 120°F in cool, dry area, out of direct sunlight and away from strong oxidizers. Do not puncture or burst. Use in accordance with good work place practices. Use with adequate ventilation. Keep containers closed when not in use. Always open containers slowly to allow any excess pressure to vent. Avoid breathing vapor. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling. Decontaminate soiled clothing thoroughly before re-use. Destroy contaminated leather clothing.

Empty containers may contain residues from the product. Treat empty containers with the same precautions as the material last contained. Do not cut, weld or apply heat to empty containers Do not incinerate

Storage:

Store in a cool, dry area, away form heat or direct sunlight. Keep containers closed when not in use. Do not store with incompatible materials

8. Exposure Controls / Personal Protection

Protective Equipment:

Use synthetic gloves if necessary to prevent excessive skin contact. Do not wear contacts and always use ANSI approved safety glasses or splash shield.

Engineering Controls:

General or dilution ventilation is frequently sufficient as the sole means of controlling employee exposure. Local ventilation is usually preferred. Use a NIOSH approved respirator if ventilation is not adequate to maintain exposures below TLV levels.

Respiratory Protection:

Use adequate ventilation to maintain exposure limits. If the exposure limits of the products or any of its components is exceeded, an approved organic vapor mask should be used (consult your safety equipment supplier). Above 1000 ppm, an approved self-contained breathing apparatus or airline respirator with full face-piece is required

Other Suggested Equipment:

Eye wash station and emergency showers should be available. Spill containment equipment should be available.

Discretion Advised:

We. take no responsibility for determining what measures are required for personal protection in any specific application. The general information should be used with discretion.

Print Date: 11/3/20 Total pages: Page 5 of 9

Exposure guidelines:

Ingredients	CAS #	Exposure Limits	
		OSHA (PEL)	ACGIH (TWA)
Liquefied Petroleum Gas	68476-86-8	1000 ppm	1000ppm
Acetone	67-64-1	1000 ppm	250 ppm
Xylenes (o-, m-, p-isomers)	133020.7	100 ppm	100 ppm
Isproplyl acetate	108-21-4	250 ppm	100 ppm
Diacetone Alcohol	123-42-2	50 ppm	50 ppm
2-Pentanone, 4-methy-	108-10-1	100 ppm	20 ppm
Methyl ethyl ketone	78-93-3	200 ppm	200 ppm
n-butyl acetate	123.86-4	150 ppm	150 ppm
n-Amyl acetate Ethylbenzene 2-Methybutyl acetate	628-63-7 100-41-4 624-41-9	100 ppm 100 ppm	50 ppm 20 ppm 50 ppm
Nitrocellulose	9007-70-0	NA	NA
Isopropyl alcohol	67-63-0	400 ppm	200 ppm

9. Physical and Chemical Properties

Appearance: Clear as dispensed from aerosol can. Odor: Sweet, pungent Evaporation Rate: Ether = 1 Slower PH: NA Melting/Freezing point: NE **Initial Boiling point and boiling range: NE** Flash Point: Flash point of propellant <0°F Flammability: NA Vapor pressure: >30 psi Vapor density >1 (Air=1) Relative density NE Solubility: negligible Auto-ignition temperature: NE Partition coefficient: NE **Decomposition temperature: NE** Viscosity: NA Flammable limits in air, % by volume: (propellant portion) Upper: 9.5%(vol) Gas in Air Lower: 1.8% (vol) Gas in Air

10. Stability and Reactivity

Stability: StableConditions to Avoid: Heat, spark, and open flameIncompatibility: Strong-Oxidizing AgentsHazardous Decomposition: Combustion will produce Carbon Monoxide, Carbon Dioxide and nitrogen-
oxygen compounds.Hazardous Polymerization: Will not occur

Chronic Toxicity

This product contains an ingredient listed by IARC, NTP or OSHA as chemical carcinogen (Hexalent Chromium)

12. Ecological Information

- 12.1 Persistence and Degradability <u>Product:</u> No further relevant information available
- 12.2 Bioaccumulative Potential

<u>Product:</u> Bioaccumulation: No further relevant information available Partition coefficient: n-octanol/water: No further relevant information available

12.3 Mobility in Soil

<u>Product:</u> Distribution among environmental compartments: No further relevant information available.

Additional Ecological Information:

General notes: German Hazard Water Class 1

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

12.4 Results of PBT and vPvB Assessment

Assessment: This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This mixture contains no

13. Disposal Considerations

Do not puncture or burn containers. Give empty, leaking, or full containers to disposal service equipped to

Item Numbers: 21702-0000

Print Date: 11/3/20 Total pages: Page 8 of 9

handle and dispose of aerosol (pressurized) containers. Dispose of spilled material in accordance with state and local regulations for waste that is non-hazardous by Federal definition. Note that this information applies to the material as manufactured; processing, use, or contamination may make this information inappropriate, inaccurate, or incomplete.

Note that this handling and disposal information may also apply to empty containers, liners and rinsate. State or local regulations or restrictions are complex and may differ from federal regulations. This information is intended as an aid to proper handling and disposal; the final responsibility for handling and disposal is with the owner of the waste. See Section 9 - Physical and Chemical Properties.
