SECTION VI – Health Hazard Data

6.1 Primary routes(s) of entry:	Inhalation?:	Yes	Skin?: No	Ingestion?: Yes
6.2 Health Hazards (acute and chronic):	Acute: Transitory upper respiratory irritation or eye irritation			
	Chronic: Inhalation of crystalline silica has been classified by IARC as			
	carcinogenic for humans (Group I). Inhalation of crystalline silica is known as a cause of silicosis, a non-cancerous lung disease caused by excessive exposure to crystalline silica. Respirable dust from this product may contain up to 52% free			
	crystalline silica. A	s such it r	epresents a risk to t	he respiratory system. Long term,
	unprotected exposure to dust levels in excess of the TLV or PEL may cause lung disease (silicosis).			
6.3 Carcinogenicity:	NTP?: Proposed IARC monographs: Yes (Group 1) OSHA Regulated?: Yes			
6.4 Signs and symptoms of exposure:	Inhalation : Irritation congestion may occur when ingested.	on and sor cur. Eyes:	eness in throat and temporary irritation	nose. In extreme exposures some n or inflammation. Not hazardous
6.5 Medical conditions generally	-			
aggravated by exposure:	Pre-existing upper a bronchitis, emphysical emphysical existence of the second	respirator	y and lung diseases asthma. Target org	such as but not limited to ans: Lungs and eyes.
6.6 Emergency First aid procedures:	Remove to fresh air. Drink water to clear throat and blow nose to evacuate dust. For eyes flush with copious amounts of water for 15 minutes. If irritation persists consult a physician.			

SECTION VII – Precautions for Safe Handling

7.1 Steps to be taken in case material is released or spilled:	Vacuum dust with equipment fitted with a HEPA filter. Use dust suppression such as water if sweeping is necessary. Sweep up spilled material and place in closed containers for disposal.
7.2 Waste Disposal methods:	Dispose of in accordance with Federal, State and Local regulations
7.3 Precautions to be taken in handling	
and storage:	Minimize dust generation and accumulation. Avoid breathing dust, avoid contact with eyes. Reclose packages and containers immediately. Continue to follow all MSDS/abel unspringer when benefing empty containers. Observe a proceedings
	handling procedures. Store in a cool dry area. Store away from foodstuffs and beverages.
7.4 Other precaution:	The avoidance of any air contaminant is always a recommended practice. Adherence to work place ventilation standards is an assurance of general personal health and comfort.

SECTION VII – Control Measure / Personal Protection

8.1 Respiratory protection:	Recommended NIOSH approved nuisance dust mask. <10X PEL, use 3M 9900; <100X PEL, use MSA Ultra-twin with H Filter; <200X PEL, use MSA 01-00-06 with type C supplied for air unit (continuous flow mode); or equivalent.
 8.2 Ventilation: 8.3 Protective gloves: 8.4 Eye protection: 8.5 Other protective clothing or equipment: 8.6 Work/Hygienic practices: 	Use sufficient natural or mechanical ventilation to keep dust level below PEL. Rubber gloves Goggles or safety glasses with shields Rubber apron Avoid dusting when in use. Observe normal care when working with chemicals.
