SECTION 2: Hazards identification

2.1. Classification of the substance or mixture Classification of the mixture in accordance with Regulation (EC) No 1272/2008 The mixture is not classified as dangerous according to Regulation (EC) No 1272/2008.

Full text of all classifications and hazard statements is given in the section 16.

2.2. Label elements

none

2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

Water-based mixture. Water content 70-75 %.

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

Identification numbers	Substance name	Content in % weight		Note
Index: 603-183-00-0 CAS: 143-22-6 EC: 205-592-6	2-[2-(2-butoxyethoxy)ethoxy]ethanol		Eye Dam. 1, H318 Specific concentration limit: Eye Dam. 1, H318: $C \ge 30 \%$ Eye Irrit. 2, H319: 20 % $\le C < 30 \%$

Full text of all classifications and hazard statements is given in the section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

If inhaled

Terminate the exposure immediately; move the affected person to fresh air.

If on skin

Remove contaminated clothes.

If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person.

If swallowed

Rinse out the mouth with clean water. In the event of issues, find medical help.

4.2. Most important symptoms and effects, both acute and delayed

- If inhaled Not expected. If on skin Not expected. If in eyes Not expected. If swallowed Not expected.
- **4.3.** Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media Accommodate extinguishing components to the location of fire. Unsuitable extinguishing media

not available

5.2. Special hazards arising from the substance or mixture In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

SECTION 10: Stability and reactivity

10.1. Reactivity

not available

- 10.2. Chemical stability
- The product is stable under normal conditions. **10.3.** Possibility of hazardous reactions
- Unknown.

10.4. Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

10.5. Incompatible materials

Protect against strong acids, bases and oxidizing agents.

10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No toxicological data is available for the mixture. Acute toxicity Based on available data the classification criteria are not met.

Pyridine-2-thiol 1-oxide, sodium salt

Parameter	Value	Exposure time	Species	Sex
ATE	0.5 mg/l			
ATE	790 mg/kg bw			
ATE	500 mg/kg bw			
	ATE ATE	ATE 0.5 mg/l ATE 790 mg/kg bw	ATE 0.5 mg/l ATE 790 mg/kg bw	ATE 0.5 mg/l

Skin corrosion/irritation

Based on available data the classification criteria are not met.

Serious eye damage/irritation

Based on available data the classification criteria are not met.

Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

Germ cell mutagenicity

Carcinogenicity

Based on available data the classification criteria are not met.

Page 4/7

SAFETY DATA SHEET

Inks 2612

Devision data 17th May 2022 Vension 2.0	Creation date	11th December 2019			
Revision date 17th May 2023 Version 2.0	Revision date	17th May 2023	Version	2.0	

Reproductive toxicity

Based on available data the classification criteria are not met.

Toxicity for specific target organ - single exposure

Based on available data the classification criteria are not met.

Toxicity for specific target organ - repeated exposure

Based on available data the classification criteria are not met.

Aspiration hazard

Based on available data the classification criteria are not met.

11.2. Information on other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 12: Ecological information

12.1. Toxicity

Acute toxicity

- 12.2. Persistence and degradability
- not available 12.3. Bioaccumulative potential
- Not available.
- **12.4.** Mobility in soil Not available.

12.5. Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

12.6. Endocrine disrupting properties

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

12.7. Other adverse effects

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

Waste type code

08 01 12 waste paint and varnish other than those mentioned in 08 01 11

SECTION 14: Transport information

14.1. UN number or ID number

- not subject to transport regulations
- 14.2. UN proper shipping name

not releva

UIDAPEN SAFETY DATA SHEET Revision date: April 11, 2024 Issue No 1/2015 Section 1: Product and company identification

Product identification:
Name: Felt tip pen Ink
Color: All colors
Number:
CAS#: mixture
Relevant identified uses of the substance or mixture and uses advised against
Currently no such applications are identified.
Details of the supplier of the safety data sheet
- Manufacturer/Supplier:
Vivapen d.o.o.
Gaji 41, 3000 Celje, Slovenia
- Phone: +386 3 425 87 20
- Fax: +386 3 425 87 45

- E-mail: info@vivapen.com

Section 2: Hazard identification of the preparation

Classification of the substance or mixture

Classification according to REGULATION (EC) No 1272/2008: Not applicable.

- The product is not classified according to the CLP regulation.
- · Information concerning particular hazards for human and environment:
- The product does not have to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.
- · Label elements: Not applicable.
- Labelling according to EU guidelines: Observe the general safety regulations when handling chemicals. The product is not subject to identification regulations under EU Directives and the Ordinance on Hazardous Materials.
 Additional data:
 - SDS available on demand.

Section 3: Composition/information on ingredients- Mixtures

Mixture of the following substances, containing non-hazardous substances and colouring agents.

Ingredients	Conc.	CAS No	Hazard symbols	Hazard statements
Water				
2-Phenoxyethanol	< 1 %	122-99-6	\diamond	H319 – Causes serious eye irritation. H302 – Harmful if swallowed.
Propylenglykol	< 20%	57-55-6		No Significant Hazard
Rosso Ponceau 4R 80	< 3%	2611-82-7		No significant Hazard
Tatrazine 85	< 3%	1934-21-0		No significant Hazard
Brilliant Blue FCF	< 1 %	3844-45-9		No significant Hazard
Azorubin 85 E 122	< 1 %	3567-69-9		No significant Hazard
Briliant Black BN LMF	< 1 %	2519-30-4		No significant Hazard
Erytrosine E127	< 2 %	16423-68-0		No significant Hazard
Netzmittel (1:2) Koralat N 100 Emulan EL	< 0,1 %	69011-36-5	\diamond	H318 – Causes serious eye damage. H302 – Harmful if swallowed.
Simacid Red	< 2 %	3520-42-1		No significant Hazard

UIUAPEN SAFETY DATA SHEET Revision date: April 11, 2024 Issue No 1/2015

Section 4: First aid measures

General:	In all cases of doubt, or when symptoms persist, seek medical attention.	
Inhalation:	NA	
Skin contact:	Wash skin thoroughly only with soap and water or recognized skin cleanser.	
Eye contact:	Rinse with plenty clean, fresh water for at least 10 minutes, holding the eyelids apart (remove	
	eye lenses if possible) and seek medical advice.	
Ingestion:	If accidentally swallowed (a lot) seek medical advice. Keep at rest. Do NOT induce vomiting.	

Section 5: Firefighting measures

Extinguishing media

 \cdot Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

· Special hazards arising from the substance or mixture: No further relevant information available.

· Advice for firefighters

· Protective equipment: No special measures required.

Section 6: Accidental release measures

- Personal precautions, protective equipment and emergency procedures: Refer to protective measures listed in sections 7 and 8.
- Environmental precautions: Remains clean with water and detergent, avoid use of solvents. Do not allow to enter sewers/ surface or ground water. If do, inform authorities in accordance to local regulations.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Place in container for disposal according to local regulations (see section 13).

· Reference to other sections

No dangerous substances are released.

Section 7: Handling and storage

Handling:

- Precautions for safe handling: No special measures required. Ensure good ventilation/exhaustion at the workplace.
- · Information about fire and explosion protection: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- Storage: store between 5 and 30 °C in a dry place, away from other chemicals.
- · Requirements to be met by storerooms and receptacles: No special requirements.
- Specific end use(s) No further relevant information available.

Section 8: Exposure controls / personal protection

Additional information about design of technical facilities: No further data; see item 7.

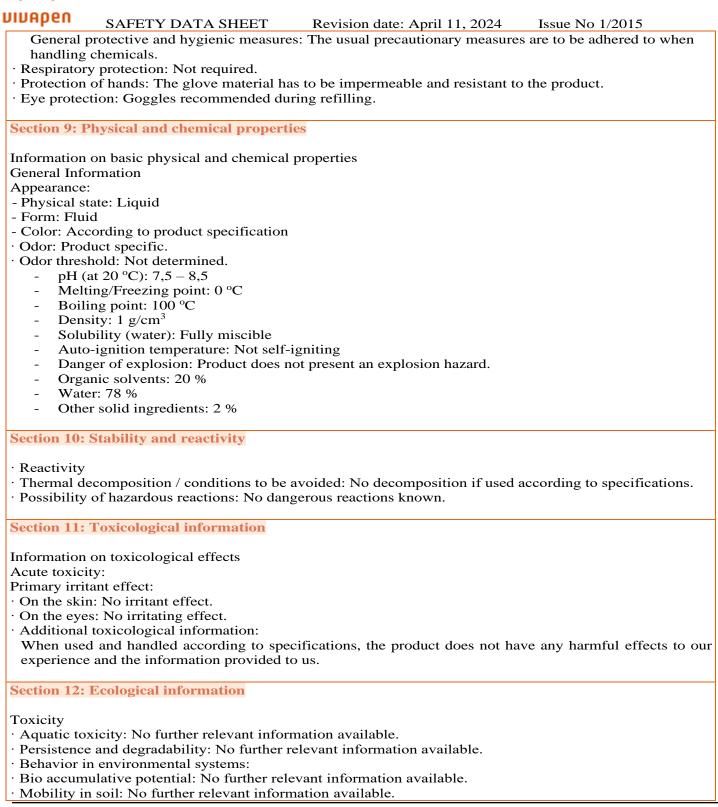

Control parameters

• Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Exposure controls

· Personal protective equipment:

Item Numbers: 80893-1001

Straget16/6525

VIUAPENSAFETY DATA SHEETRevision date: April 11, 2024Issue No 1/2015• Additional ecological information:

· General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Section 13: Disposal considerations

Waste treatment methods

 \cdot Recommendation Smaller quantities can be disposed of with household waste or according to national regulations.

Uncleaned packaging:

- · Recommendation: Disposal must be made according to official local and national regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.

Section 14: Transport information

UN-Number: None UN proper shipping name: None Transport hazard class(es): None Packing group: None • Marine pollutant: No

· Special precautions for user: Not applicable.

Section 15: Regulatory information

· Safety, health and environmental regulations/legislation specific for the substance or mixture

 \cdot Water hazard class: Water hazard class 1 (Self-assessment): slightly hazardous for water.

 \cdot Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

Labeling is not required according to EEC regulations.

Section 16: Other information

This information is based on our present knowledge and on current EEC and national regulations. The users working conditions are beyond our knowledge and control. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. The product is to be used for writing. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and legislation.

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended				
	Ink 2621 -	colour 12 blac	:k	
Creation date	04th June 2009			
Revision date	05th January 2023	Version	4.0	

If on skin Remove contaminated clothes.

If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person.

If swallowed

Rinse out the mouth with clean water. In the event of issues, find medical help. 4.2. Most important symptoms and effects, both acute and delayed

- Most important symptoms and effects, both acute and delayed If inhaled Not expected. If on skin Not expected. If in eyes Not expected. If swallowed Not expected.
- **4.3.** Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist **Unsuitable extinguishing media**

water - full jet

5.2. Special hazards arising from the substance or mixture

Fire produces heavy, black smoke, with potential development of carbon monoxide and dioxide and other toxic gases. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

5.3. Advice for firefighters

Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

SECTION 6: Accidental release measures

- **6.1. Personal precautions, protective equipment and emergency procedures** Follow the instructions in the Sections 7 and 8.
- 6.2. Environmental precautions
- Prevent contamination of the soil and entering surface or ground water.
- 6.3. Methods and material for containment and cleaning up
- After removal of the product, wash the contaminated site with plenty of water.
- **6.4.** Reference to other sections See the Section 7, 8 and 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

- 7.2. Conditions for safe storage, including any incompatibilities
- Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.
- 7.3. Specific end use(s)

2.1.		the mixture in accordance					

Full text of all classifications and hazard statements is given in the section 16.

2.2. Label elements

none

2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

Water-based mixture. Water content >80 %. **Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment** none

SECTION 4: First aid measures

4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

SAFETY DATA SHEET

a to Commission Regulation (EU) 2020/878 as amended

Inks 2701					
Creation date	04th June 2013				
Revision date	13th June 2023	Version	8.0		

If inhaled

Terminate the exposure immediately; move the affected person to fresh air.

If on skin Remove contaminated clothes.

If in eves

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person.

If swallowed

Rinse out the mouth with clean water. In the event of issues, find medical help.

4.2. Most important symptoms and effects, both acute and delayed

- If inhaled Not expected. If on skin Not expected. If in eyes Not expected. If swallowed Not expected.
- **4.3.** Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist **Unsuitable extinguishing media**

water - full jet

5.2. Special hazards arising from the substance or mixture

Fire produces heavy, black smoke, with potential development of carbon monoxide and dioxide and other toxic gases. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

5.3. Advice for firefighters

Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Prevent contact with skin and eyes. Use personal protective equipment for work. Entry authorized persons only.

6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains.

6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (nonflammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per Section 13. Collected material should be disposed of in accordance with locally valid regulations. Upon an escape of large quantities of the product, inform the Fire Department and the Environmental Department of the Municipal Authority with extended scope of competencies. After removal of the product, wash the contaminated site with plenty of water or another suitable cleaning material. Do not use solvents.

6.4. Reference to other sections

7, 8 and 13.

SAFETY DATA SHEET

<u> </u>	according to Commiss	according to Commission Regulation (EU) 2020/878 as amended					
	Inks 2701						
Creation date	04th June 2013						
Revision date	13th June 2023	Version	8.0				

SECTION 7: Handling and storage 7.1. Precautions for safe handling

Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in areas designated for this purpose.

7.3. Specific end use(s)

Observe the information supplied by the manufacturer for the intended use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

The mixture contains substances for which the following concentration limits in the workplace are determined.

8.2. Exposure controls

Follow usual measures for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. If exposure limits cannot be observed in this mode, suitable protection of airways must be used. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

Eye/face protection

Safety glasses with side protection (EN 166) if there is a risk of splashing.

Skin protection

Hand protection: Protective gloves (EN 374). Short-term exposure: disposable gloves made from vinyl. Long-term exposure: chemical resistant gloves made from nitrile. Observe recommendations of the particular manufacturer of the gloves in the choice of their appropriate thickness, material and permeability. Other protection: Protective clothing. Contaminated skin should be washed thoroughly.

Respiratory protection

In normal use is not necessary.

Thermal hazard

not available

Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

	-
Physical state	liquid
Colour	according to the manufacturer's specifications
Odour	characteristic
Melting point/freezing point	data not available
Boiling point or initial boiling point and boiling range	100 °C

SECTION 10: Stability and reactivity

10.1. Reactivity

not available

10.2. Chemical stability

- Under normal use there is no dangerous reaction with other substances.
- 10.3. Possibility of hazardous reactions

Under normal conditions, the product is stable.

10.4. Conditions to avoid The product is stable and no degradation occurs under normal use.
10.5. Incompatible materials Protect against strong acids, bases and oxidizing agents.

10.6. Hazardous decomposition products Not developed under normal uses.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

No toxicological data is available for the mixture.

Acute toxicity

Based on available data the classification criteria are not met.

Inks 2701	nks 2701						
Route of exposure	Parameter	Value	Exposure time	Species	Sex	Value determination	
Oral	ATE	109300 mg/kg				Calculation of value	
Dermal	ATE	1111000 mg/kg				Calculation of value	
Inhalation (vapor)	ATE	40740 mg/l				Calculation of value	

Skin corrosion/irritation

Based on available data the classification criteria are not met.

Serious eye damage/irritation

Based on available data the classification criteria are not met.

Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

Germ cell mutagenicity

Based on available data the classification criteria are not met.

Carcinogenicity

Based on available data the classification criteria are not met.

Reproductive toxicity

Based on available data the classification criteria are not met.

The product is not classified as PBT or vPvB.
 12.6. Endocrine disrupting properties
 The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

 12.7. Other adverse effects

not available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

Waste type code

08 01 12 waste paint and varnish other than those mentioned in 08 01 11

SECTION 14: Transport information

14.1. UN number or ID number

not subject to transport regulations

- 14.2. UN proper shipping name
 - not relevant
- 14.3. Transport hazard class(es) not relevant

14.7.	Maritime transport in bulk according to IMO instruments not relevant						

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

15.2. Chemical safety assessment

not available

SECTION 16: Other information

Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per Section 1. The user is responsible for adherence to all related health protection regulations. **Key to abbreviations and acronyms used in the safety data sheet**

Key to abbreviation	is and acronyms used in the safety data sheet
ADR	European agreement concerning the international carriage of dangerous goods by road
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
EC	Identification code for each substance listed in EINECS
EINECS	European Inventory of Existing Commercial Chemical Substances
EmS	Emergency plan
EU	European Union
EuPCS	European Product Categorisation System
ΙΑΤΑ	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods
IMO	International Maritime Organization
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
log Kow	Octanol-water partition coefficient
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative and Toxic
ppm	Parts per million
