Skin Contact

Rinse skin with water or shower.

If skin irritation or rash occurs, get medical advice and attention.

Wash with plenty of soap and water.

Wash contaminated clothing before reuse.

Get medical advice and attention if you feel unwell.

Eye Contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

When the ocular stimulation lasts, Seek medical treatment and advice.

Rinse cautiously with water for several minutes.

Get medical advice and attention if you feel unwell.

Ingestion

Rinse mouth.

Get medical advice and attention if you feel unwell.

Section 5 – FIRE FIGHTING MEASURES**Extinguishing Media**

Use plenty of water—FLOOD it ! If water is not available, use CO2, dry chemical or dirt.

Large fires: Water spray, fog or regular foam.

Small fires: Water spray or fog is preferred; if water not available use dry chemical, CO2 or regular foam..

Specific Fire Fighting

Use extinguishing agent suitable for type of surrounding fire.

Non-combustible, substance itself does not burn.

Move containers from fire area if you can do it without risk.

Cool containers with flooding quantities of water until well after fire is out.

In surrounding fire, move containers instantly to safe place, if movable.

Flood fire area with water from a distance.

Fully encapsulating vapor protective clothing should be worn for spills and leaks with no fire.
Isolate the hazard area and deny entry to unnecessary and unprotected personal.
Isolate the site as a leak area by providing a zone that has an appropriate width to all directions.
Keep unauthorized personnel away.
Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

Environmental Precautions
Methods and Equipment
for Containment and
Cleaning up

Do not release into the environment.
Stop leak if you can do it without risk.

Large spills; prevent flowing out with a dike and pump it.

Collect the leakage by scraping up and put it into an empty container that can be closed tightly. Dispose of it later.

Cover with dry earth, sand or grinded limestone and collect into container.

Allow material to solidify, and scrape up.

Small spills; absorb or cover with dry earth, sand or other non-combustible material and transfer to containers for later disposal.

Prevention Measures for
Secondary Accidents

Prevent flowing into drain, sewage, basement, and closed area.

Cleanse the floor surface frequently not to cause slipping.

Section 7 – HANDLING AND STORAGE
