4. FIRST AID

Transport the person to the fresh air. In case of fainting, place the person in a lateral safety position. Immediately flush eyes with plenty of water, occasionally lifting the eyelids. Check if the victim wears contact lenses and in this case remove them.

If irritation occurs, consult a doctor.

5. FIRE FIGHTING MEASURES

The mixture is not flammable. In case of fire, spray with water (in fog), foam, dry chemical or carbon dioxide.

6. MEASURES TO BE TAKEN IN CASE OF ACCIDENTAL RELEASE

Provide adequate ventilation. Put on appropriate personal protective equipment. Avoid dispersal and spillage of the spilled product and contact with soil, surrounding aquatic environment, sewers or drains.

7. HANDLING AND STORAGE

No special measures required.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Wash hands, forearms and face after handling product.

Recommended: dust mask

Avoid contact with eyes. Use eye protection in accordance with an approved standard.

Personal protective equipment for the body should be selected according to the task to be performed and the risks involved.

9. PHYSICAL AND CHEMICAL PROPERTIES

General Information

Physical state: powder

Color: yellow

Odor: odorless

PH: 7

Melting point: not available

Bulk density: 484 g/l

Solubility: insoluble

Safety Data Sheet – Yellow Ocher Pigment

Revision date: 12/10/2024

10. STABILITY AND REACTIVITY

The product is stable.

Under normal conditions of storage and use, no hazardous decomposition products should appear.

11. TOXICOLOGICAL INFORMATION

Inhalation: No known significant effects or critical hazards.

Ingestion: No known significant effects or critical hazards.

Skin contact: No known significant effects or critical hazards.

Eye contact: Exposure to atmospheric concentrations above Statutory or recommended exposure limits may possibly lead to eye irritation.

If the product is handled properly, it has no harmful effects according to our experiences and information.

12. ECOLOGICAL INFORMATION

Ochre, the major constituent of the product, is in the solid state, a mineral constituent, natural to the earth. In the dissolved state, the substance is a natural and indispensable constituent of waters in nature. Adverse effects on the environment can therefore be excluded. The product cannot be biodegraded. Do not throw in nature and sewers

13. CONSIDERATIONS RELATION TO ELIMINATION

In general: Check the suitability of the product for reuse. Uncleaned waste and uncleaned packaging must be packed or closed, labeled and disposed of at a destruction or recycling center in accordance with the national legislation in force. Consult the manufacturer in case of large quantities. If uncleaned empty containers are forwarded, inform the consignee of the possible risks due to the residues of the product. For disposal within the EU, use the waste code in force according to the European Waste List (LED). All waste producers are required, among other things, to classify their waste according to the category and process code of the European Waste List (LED).

To the present knowledge of the supplier, this product is not considered a hazardous waste as defined by EU Directive 91/689 / EEC.

14. TRANSPORT

This product is not subject to labeling. No special conditions
