

30460-1026

# COLORAMICS ACCESSORY PRODUCTS, CASCADES, AND SNOW GEMS

## SAFETY DATA SHEET (SDS)

**Version:** 01  
**Date of Issue:** July 07, 2025

**According to:** OSHA Hazard Communication Standard 29 CFR 1910.1200(g) Rev. 2024, WHMIS 2015 (Hazardous Products Regulations), UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS) 10th Revision

### Section 1 – Identification of the Substance/Mixture and of the Company/Undertaking

#### 1.1 Product identifier

**Product Name:** Coloramics Accessory Products, Cascades, and Snow Gems

**Product Colors:** Kiln Wash (AC001), Clay Mender (AC306), Black Cobblestone (SG201), White Cobblestone (SG202), Snowfall (SG302), Silkscreen Media (SG310), Fired Snow (SY546), Rapid Roll White (SG101), Rapid Roll Black (SG102), Clear Cascade (PC601), White Cascade (PC602), Citrus Snow Gem (SG303), Berry Snow Gem (SG304), Spearmint Snow Gem (SG305),

**Product sizes:** 2 fl. oz. (59 mL), 4 fl. oz. (118 mL), 1 pt. (473 mL)

**Other Means of Identification:** None known

**Product Description:** Liquid formulations intended to be used for arts and crafts purposes.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified use(s):** Use products for their intended purpose as a ceramics specialty products intended for arts and crafts purposes. The products are applied using a brush, palette knife, or a sponge then placed in a kiln for glaze firing. The products are intended for small batch use.

#### 1.3 Details of the supplier of the safety data sheet

**Manufacturer/Supplier:** Coloramics, LLC  
4077 Weaver Court South  
Hilliard, OH 43026

**Business Phone:** 614-675-1171

**Email:** info@maycocolors.com

#### 1.4 Emergency telephone number

**Emergency Telephone:** Contact the local poison control centre.

### Section 2 – Hazard(s) Identification

#### 2.1. Classification of the substance or mixture

**According to:** OSHA Hazard Communication Standard 29 CFR 1910.1200(g) Rev. 2024; WHMIS 2015 (Hazardous Products Regulations); Globally Harmonized System of Classification and Labelling of Chemicals (GHS), 10th Revision:

Physical	Health	Environment
Not classified	Not classified	Not classified

**2.2. Label elements**

**Label Pictogram:** None required  
**Signal Word:** None required  
**Hazard statement:** None required  
**Precautionary Statement:** None required  
**Supplemental Hazard Information:** None

**2.3. Other hazards**

- No other hazards have been identified for this product.

**Section 3 – Composition / Information on Ingredients****3.1 Substances**

The product is a mixture and not a substance.

**3.2 Mixture**

Chemical Name	CAS No.	EC No.	% Concentration <sup>a</sup>	GHS Hazards
Quartz (crystalline silica)	14808-60-7	238-878-4	≤6.9159%	H350: Carcinogenicity (Category 1A) (inhalation); H372: Specific target organ toxicity (repeated exposure, Category 1, lungs)
Titanium dioxide	13463-67-7	236-675-5	≤0.7280%	H351: Carcinogenicity (Category 2) (Inhalation)
Zinc pyrithione	13463-41-7	236-671-3	≤0.0145%	H301: Acute oral toxicity (Category 3); H318: Eye damage (Category 1); H330: Acute inhalation toxicity (Category 2); H372: Specific target organ toxicity (repeated exposure, Category 1); H360D: Reproductive toxicity (Category 1B) (May damage the unborn child) H400: Acute aquatic toxicity (Category 1); H410: Chronic aquatic toxicity (Category 1)

<sup>a</sup> Concentrations are calculated as a maximum across all products

The other ingredients in the product are either considered non-hazardous or are below their respective GHS cut-off values/concentration limits in the final product and were therefore not disclosed in the SDS.

It should be noted that the product may contain quartz (CAS No. 14808-60-7) and titanium dioxide (CAS No. 13463-67-7) which may be hazardous when inhaled. Given the nature and physical form of the product (*i.e.*, liquid glaze) airborne respirable particles would not likely be released from the product and therefore the hazard is not relevant to the product.

Assessment of this product was based on the assumption that the glaze will not be sanded after it has been fired in the kiln.

**Section 4 – First Aid Measures****4.1 Description of first aid measures**

**Eye contact:** No specific first aid measures are required. If irritation occurs, remove contact lenses if present and easy to do – rinse eyes with water. If eye irritation persists: Get medical advice/attention.

**Skin contact:** No specific first aid measures are required. If irritation occurs, wash with plenty of water and soap. Take off contaminated clothing. If skin irritation persists: Get medical advice/attention.

**Inhalation:** Inhalation route of exposure is not anticipated with intended use. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Seek medical attention if in doubt.

**Ingestion:** No specific first aid measures are required. Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if in doubt.

**4.2 Most important symptoms and effects, both acute and delayed**

- Refer to **Section 11 - Toxicological Information**.

**4.3 Indication of any immediate medical attention and special treatment needed**

- Not required

**Section 5 – Fire Fighting Measures****5.1 Extinguishing media**

**Suitable Extinguishing Media:** Use extinguishing media suitable for surrounding area if material is involved in a fire (e.g., water fog, water spray, foam, dry chemical or carbon dioxide).

**Unsuitable Extinguishing Media:** None known

**5.2 Special hazards arising from the substance or mixture**

**Hazardous combustion products:**

- Irritating vapours or fumes may form if product is involved in fire:
- See also **Section 10 - Stability and Reactivity**.

**5.3 Advice for firefighters**

- Wear a self-contained breathing apparatus to protect against potentially irritating vapours or fumes.

**Section 6 – Accidental Release Measures****6.1 Personal precautions, protective equipment (PPE) and emergency procedures**

**Personal Precautions:** Ventilate area if spilled in confined space or other poorly ventilated areas. Observe PPE advice in **Section 8 – Exposure Controls/Personal Protection**.

**Emergency Procedures:** Evacuate personnel to safe areas.

**6.2 Environmental precautions**

- Prevent entry and contact with soil, drains, sewers, and waterways. Inform relevant local/regional/national/international authorities. Prevent further leakage or spillage if it is safe to do so.

**6.3 Methods and material for containment and cleaning up**

**Containment/Clean-up Measures:** Contain spill if safe to do so. Collect spillage. Ventilate contaminated area thoroughly. Dispose of contents/container in accordance with local/regional/national/international regulations.

**6.4 Reference to other sections**

- Refer to **Section 8 - Exposure Controls/Personal Protection** and **Section 13 – Disposal Considerations**.

**Section 7– Handling and Storage****7.1 Precautions for safe handling**

- Avoid breathing mist/vapour/spray
- Wash hands thoroughly after handling.
- Wash contaminated clothing before reuse.
- Employees should be trained in the safe use and handling of chemical materials.
- Refer to **Section 8 – Exposure Controls/Personal Protection**

**7.2 Conditions for safe storage, including any incompatibilities**

- Keep container tightly closed to avoid spills.
- Keep in a cool dry place.

**7.3 Specific end use(s)**

- Refer to **Section 1.2 – Relevant identified uses**.

## Section 8– Exposure Controls / Personal Protection

### 8.1 Control Parameters:

**Occupational exposure limits:** Only vapours were considered to be foreseeable under conditions of normal use. Airborne particles, such as dust, are not foreseeable under conditions of normal use.

Chemical Name	CAS No.	ACGIH TLVs TWA	OSHA PELs TWA	NIOSH RELs TWA	DFG MAK TWA
Silica, crystalline, mixed respirable (quartz, cristobalite, tridymite)	14808-60-7	0.025 mg/m <sup>3</sup> <sup>a</sup>	0.05 mg/m <sup>3</sup>	0.05 mg/m <sup>3</sup>	N/A
Titanium dioxide	13463-67-7	10 mg/m <sup>3</sup> <sup>a</sup>	2.5 mg/m <sup>3</sup> <sup>b, c</sup>	N/A	0.3 mg/m <sup>3</sup> <b>R</b> <sup>d</sup>
N/A – Not applicable <b>R</b> – Measured as respirable fractions of the aerosol			<sup>a</sup> Respirable particulate matter <sup>b</sup> Finescale particles <sup>c</sup> Total dust <sup>d</sup> Multiplied with the material density		

**Note:** Titanium dioxide (CAS No. 13463-67-7) values listed above are related to non-ultrafine and non-nanoscale or finescale particles.

### 8.2 Exposure Controls:

#### Appropriate engineering controls

- No special requirements under ordinary conditions of use and with adequate ventilation. Mechanical ventilation or local exhaust ventilation may be required.

### 8.3 Personal Protective Equipment

**Note:** Consider the concentration and amount of product at the workplace when selecting PPE. Use protective equipment as required.

#### Respiratory:

Under normal conditions of use, a respirator is not usually required. Use appropriate respiratory protection when handling to minimize exposure to vapours. Consult with an industrial hygienist to determine the appropriate respiratory protection for your specific use of this material. A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator.

#### Eyes/Face:

If contact is likely, safety glasses with side shields are recommended. An eyewash bottle or station should be available in the workplace. Wear a face shield if splash or spray is likely.

#### Hands:

Use good industrial hygiene practices to avoid skin contact. If contact with the material may occur, wear chemically protective gloves.

#### Body/Skin:

Wear chemically impervious gloves, coveralls, apron, boots as necessary to minimize contact. Do not wear rings, watches or similar apparel that could entrap the material.

#### Thermal Hazards:

None known

#### Environmental Exposure Controls:

Not available

#### Hygiene measures:

Observe good industrial hygiene practices. Avoid contact with skin. Contaminated work clothing should not be allowed out of the workplace and should be washed before reuse. When using the product do not eat, drink or smoke.

## Section 9 – Physical and Chemical Properties

### 9.1 Information on basic physical and chemical properties

Note: The data below are typical values and do not constitute a specification.

<b>Appearance:</b> <b>Physical state:</b> <b>Color:</b> <b>Odor:</b>	Liquid Varies by product None	<b>Partition Coefficient n-octanol/water:</b> <b>Auto-ignition temperature:</b>	Not available Not available
<b>pH (as supplied):</b>	8 - 9	<b>Decomposition temperature:</b>	Not available
<b>Freezing point:</b>	32°F	<b>Dynamic viscosity:</b>	Not available
<b>Boiling point:</b>	100°F	<b>Molecular weight:</b>	Not available
<b>Flash point:</b>	Not available	<b>Taste:</b>	Not available
<b>Evaporation rate:</b>	Not available	<b>Explosive properties:</b>	Not available
<b>Flammability:</b>	Not available	<b>Oxidizing properties:</b>	Not available
<b>Upper/lower explosive limits:</b>	Not available	<b>Surface tension:</b>	Not available
<b>Vapor pressure:</b>	Not available	<b>Volatile component:</b>	Not available
<b>Water solubility:</b>	Not available	<b>Gas group:</b>	Not available
<b>Vapor density (Air = 1):</b>	Not available	<b>pH (as solution):</b>	Not available
<b>Specific gravity (Water = 1):</b>	Not available	<b>VOC:</b>	Not available
<b>Relative density:</b>	Not available	<b>Particle size range:</b>	Not available

### 9.2 Other information

- No further data available

## Section 10 – Stability and Reactivity

### 10.1 Reactivity

- This material is not considered to be reactive under normal handling and storage conditions.

### 10.2 Chemical stability

- This material is considered stable under normal handling and storage conditions.

### 10.3 Possibility of hazardous reactions

- Not expected to occur under normal handling and storage conditions.

### 10.4 Conditions to avoid

- Exposure to high temperatures
- Strong acids
- Strong bases
- Strong oxidisers

### 10.5 Incompatible materials

- Strong acids
- Strong bases
- Strong reducing agents
- Strong oxidizing agents

### 10.6 Hazardous decomposition products

- Thermal decomposition or combustion may generate smoke, carbon monoxide, carbon dioxide, and other products of incomplete combustion. Irritating and toxic substances may be emitted upon combustion, burning, or decomposition of dry solids.

## Section 11 – Toxicological Information

### 11.1. Information on hazard classes:

**Likely routes of exposure:** Skin/eye contact, inhalation of vapors.

**Potential signs and symptoms:** None expected under normal conditions of use

<b>Acute oral toxicity:</b>	Zinc pyrithione (CAS No. 13463-41-7) has been classified for acute oral toxicity (Category 3). Product classification is not warranted based on the concentration of zinc pyrithione in the product and given that the product ATE is >5000 mg/kg.
<b>Acute dermal toxicity:</b>	The product is practically non-toxic based on available animal and human use data. The dermal ATE is >2000 mg/kg.
<b>Acute inhalation toxicity:</b>	Zinc pyrithione (CAS No. 13463-41-7) has been classified for acute inhalation toxicity (Category 2). Product classification is not warranted based on the concentration of zinc pyrithione in the product and given that the product ATE is >20 mg/L (vapours).
<b>Skin corrosion/irritation:</b>	The ingredients in this product >1% are not corrosive to the skin or skin irritants based on human and/or animal studies.
<b>Serious eye damage/irritation:</b>	Zinc pyrithione (CAS No. 13463-41-7) has been classified for eye damage (Category 1). Product classification is not warranted for eye effects based on the concentration of zinc pyrithione in the product. The other ingredients in this product >1% are not damaging to the eyes or eye irritants based on human and/or animal studies.
<b>Respiratory or skin sensitization:</b>	The ingredients in this product >0.1% are not sensitizing to the skin or respiratory system based on human and/or animal studies.
<b>Mutagenicity:</b>	The ingredients in this product >0.1% are not mutagenic based on animal studies or no data identified for the components in this product.
<b>Carcinogenicity:</b>	Quartz (crystalline silica) (CAS No. 14808-60-7) (airborne, unbound particles of respirable size) has been classified for carcinogenicity (Category 1). Titanium dioxide (CAS No. 13463-67-7) (airborne, unbound particles of respirable size) has been classified for carcinogenicity (Category 2). Quartz (crystalline silica) (listed as silica dust, crystalline, in the form of quartz or cristobalite) is listed as a Group 1 carcinogen by IARC. Titanium dioxide is listed as a Group 2B carcinogen by IARC. Crystalline silica [listed as silica, crystalline (respirable size) / silica, crystalline — $\alpha$ -quartz and cristobalite] and titanium dioxide are also listed as carcinogens by NTP and ACGIH. Product classification is not warranted for carcinogenicity based on a review of available data and the nature/physical form of the product ( <i>i.e.</i> , liquid glaze). It was assumed that the glaze will not be sanded after it has been fired in the kiln. The other ingredients in the product >0.1% are not carcinogenic based on animal studies or no data identified for the components in this product.
<b>Reproductive Toxicity:</b>	Zinc pyrithione (CAS No. 13463-41-7) has been classified for reproductive toxicity (Category 1B; may damage fertility or the unborn child) has been classified for reproductive toxicity (Category 2; suspected of damaging fertility or the unborn child). Product classification is not warranted for this effect given the concentration of zinc pyrithione in the product. The other ingredients in this product >0.1% are not reproductive toxicants based on animal studies, or no data identified for the components in this product.
<b>Specific target organ toxicity (single exposure):</b>	The ingredients in this product >1% are not single exposure specific target organ toxicity (single exposure) hazards based on animal studies or no data identified for the components in this product
<b>Specific target organ toxicity (repeated exposure):</b>	Quartz (crystalline silica) (CAS No. 14808-60-7) has been classified for specific target organ toxicity (repeated exposure, Category 1; causes damage to lungs through prolonged or repeated exposure <i>via</i> inhalation). Product classification is not warranted for this effect given the nature of the product ( <i>i.e.</i> , liquid glaze). It was assumed that the glaze will not be sanded after it has been fired in the kiln. Zinc pyrithione (CAS No. 13463 41-7) has been classified for specific target

organ toxicity (repeated exposure, Category 1; causes damage to lungs through prolonged or repeated exposure). Product classification is not warranted for this effect given the concentration of zinc pyrithione in the product. The other ingredients in this product >1% are not repeated exposure specific target organ toxicity hazards based on available information, human and/or animal studies.

**Aspiration hazard:**

The ingredients in this product >1% are not aspiration hazards based on animal studies or no data identified for the components in this product.

## Section 12 – Ecological Information

**12.1 Toxicity**

- Environmental hazards are outside the scope of OSHA/WHMIS. Based on the criteria outlined in the 10th revision of the GHS, the product is classified for acute aquatic toxicity (Category 2).

Chemical Name	CAS No.	Species	Result
Zinc pyrithione *	13463-41-7	Pimephales promelas	LC <sub>50</sub> (96h): 0.0026 mg/L NOEC (96h): 0.011 mg/L
		Daphnia magna	LC <sub>50</sub> (48h): 0.0082 mg/L NOEC (48h): 0.011 mg/L
		<i>Selenastrum capricornutum</i>	EC <sub>50</sub> (120h): 0.028mg/L NOEC (120h): 0.0078 mg/L

\*According to Regulation (EC) No. 1272/2008 (CLP), M=1000 for acute aquatic effects and M=10 for chronic aquatic effects.

**12.2 Persistence and degradability**

- Zinc pyrithione (CAS No. 13463-41-7) is not persistent and rapidly degrades in water and the anaerobic sediment layer.
- No data available for the product.

**12.3 Bioaccumulative potential**

- Zinc pyrithione (CAS No. 13463-41-7) is unlikely to bioaccumulate in aquatic species, either directly or through the food chain. The estimated log K<sub>ow</sub> is 0.99.
- No data available for the other ingredients in the product.

**12.4 Mobility in Soil**

- Zinc pyrithione (CAS No. 13463-41-7) is slightly (K<sub>oc</sub>=784) or very slightly (K<sub>d</sub>=2347) mobile in soils and very slightly mobile (K<sub>oc</sub>=3597-10633) in sediments.
- No data available for the other ingredients in the product.

**12.5 Results of PBT and vPvB assessment**

- The ingredients in this product are not considered PBT or vPvB.

**12.6 Other adverse effects**

- No further data available.

**References:**

ECHA (European Chemicals Agency). 2025. REACH Registered Substances Database. <https://echa.europa.eu/search-for-chemicals>

## Section 13 – Disposal Considerations

### 13.1 Waste treatment methods

**Preparing wastes for disposal:** Use product for its intended purpose or recycle if possible. Dispose of waste in accordance with local, regional, national, and/or international regulations. The empty container has residues which may exhibit hazards of the product.

**Contaminated Packaging:** Container packaging may exhibit hazards.

## Section 14 – Transport Information

Note: This product is not regulated as dangerous goods for transport.

<b>14.1 UN number</b>	Not applicable
<b>14.2 UN proper shipping name</b>	Not applicable
<b>14.3 Transport hazard class(es):</b>	Not applicable
<b>14.4 Packing group</b>	Not applicable
<b>14.5 Environmental hazards</b>	None
<b>14.6 Special precautions for user</b>	None
<b>14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code</b>	Not applicable

## Section 15 – Regulatory Information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Note: The information that was used to confirm the compliance status of this product may deviate from the chemical information shown in **Section 3 – Composition / Information on Ingredients**.

#### United States

##### **Federal Regulations:**

**Comprehensive Environmental Response and Liability Act of 1980 (CERCLA):** No ingredients in this product >0.1% are subject to reporting under CERCLA.

**Clean Water Act (CWA):** Zinc and compounds, 2,3,7,8 TCDD (CAS No. 1746-01-6) [listed as 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)], chromium and compounds, and cadmium and compounds are listed as toxic pollutants. The other ingredients in this product are not listed as toxic pollutants.

**Clean Air Act (CAA):** The ingredients in this product are not listed under the CAA.

##### **Superfund Amendments and Reauthorization Act (SARA) Title III Information:**

**SARA 302 Components:** The ingredients in this product are not subject to reporting requirements of S.302.

**SARA 304 Emergency Release Notification:** None.

**SARA 311/312 Hazards:** None.

**SARA 313 Components:** 2,3,7,8 TCDD (CAS No. 1746-01-6) [listed as 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)], methanol (CAS No. 67-56-1), arsenic compounds, cadmium compounds, chromium compounds, cobalt compounds, lead compounds, mercury compounds, nickel compounds are subject to reporting requirements of S.313. No other ingredients in this product are subject to reporting requirements of S.313. The other ingredients in this product are not subject to reporting requirements of S.313.

**Toxic Substances Control Act (TSCA):** Kyanite (CAS No. 1302-76-7) is not listed on the TSCA. The other ingredients are listed on the non-confidential TSCA inventory or are exempt.

**State Regulations:**

**California:** Titanium dioxide (airborne particles of respirable size) (CAS No. 13463-67-7) and quartz [listed as silica, crystalline (airborne particles of respirable size)] (CAS No. 14808-60-7) are listed on the Proposition 65 List; however, given the nature/physical form of the product (*i.e.*, liquid glaze), airborne respirable particles would not likely be released from this product and therefore the listed forms of titanium dioxide and quartz are not relevant for the product. 2,3,7,8 TCDD (CAS No. 1746-01-6) [listed as 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD)], methanol (CAS No. 67-56-1), arsenic [listed as arsenic (inorganic arsenic compounds)], cadmium (listed as cadmium/cadmium and cadmium compounds), chromium VI [listed as chromium (hexavalent compounds)], cobalt [listed as cobalt (II) oxide], lead (listed as lead/lead and lead compounds), mercury (listed as mercury and mercury compounds), and nickel (listed as nickel oxide) are listed on the California Proposition 65 List as chemicals known to the State of California to cause cancer and/or developmental/reproductive toxicity. Warnings for the purpose of California Proposition 65 for cobalt and nickel are not warranted given the nature/physical form of the products (*i.e.*, liquid glaze). Additionally, available information and/or a screening assessment indicates that the concentrations of these chemicals in the product are not expected to be a cause for concern and warnings for the purpose of California Proposition 65 are not required. No other ingredients in this product are listed on the California Proposition 65.

**New Jersey Right to Know Hazardous Substance List:** Zinc oxide (CAS No. 1314-13-2), quartz (listed as silica, quartz) (CAS No. 14808-60-7), titanium dioxide (CAS No. 13463-67-7), kaolinite (listed as kaolin) (CAS No. 1332-58-7), propylene glycol (CAS No. 57-55-6), tin dioxide (listed as tin (IV) oxide) (CAS No. 18282-10-5), chromium (III) oxide (listed as chromic oxide) (CAS No. 1308-38-9), 2,3,7,8 TCDD [listed as (2,3,7,8-tetrachlorodibenzo-p-dioxin) (CAS No. 1746-01-6), methanol (CAS No. 67-56-1), arsenic, cadmium, chromium (listed as chromium VI compounds), cobalt (listed as cobalt compounds), lead, mercury (listed as mercury, elemental and inorganic compounds), and nickel are listed on the Right to Know Hazardous Substance List. No other ingredients are listed on the Right to Know Hazardous Substance List.

**Canada**

**CEPA DSL/NDL:** The ingredients in the product are listed on the DSL/NDL.

**International:**

**IARC:** Quartz (CAS No. 14808-60-7) (listed as silica dust, crystalline, in the form of quartz or cristobalite), 2,3,7,8 TCDD (CAS No. 1746-01-6) (listed as 2,3,7,8-Tetrachlorodibenzo-para-dioxin), arsenic (listed as arsenic and inorganic arsenic compounds), cadmium (listed as cadmium and cadmium compounds), chromium [listed as chromium (VI) compounds], and nickel compounds are listed as Group 1, carcinogenic to humans. Talc (CAS No. 14807-96-6) is listed as Group 2A, probably carcinogenic to humans. Titanium dioxide (CAS No. 13463 67-7) and lead are listed as Group 2B, possibly carcinogenic to humans. Cobalt [listed as cobalt (II,III) oxide], chromium [listed as chromium (III) compounds], and mercury (listed as mercury and inorganic mercury compounds) are listed as Group 3, unclassifiable as to carcinogenicity in humans. No other ingredients in this product are classified with respect to carcinogenicity.

**15.2 Chemical Safety Assessment**

- None available for the components in this product.

**Section 16 – Other Information**

An **AP (Approved Product)** label is appropriate for this product. The product, *Coloramics Accessory Products, Cascades, and Snow Gems* (colors listed in Section 1.1), is safe and is certified to contain no materials in sufficient quantities to be toxic or injurious to humans, including children, or to cause acute or chronic health problems.

**List of acronyms and abbreviations:**

ACGIH: American Conference of Governmental Industrial Hygienists	N/A: Not applicable
ATE: Acute Toxicity Estimate	NOEC: No Observed Effect Concentration
CAA: Clean Air Act	NIOSH: National Institute for Occupational Safety & Health
CAS: Chemical Abstract Service Number	NTP: National Toxicology Program
