Creative Woodburner®

New hot tool innovation from Walnut Hollow®!

This precision burning tool features a stand alone Variable Temperature Control unit with a slim, ergonomic hand tool and convenient stand.

Our newest tool is easy for anyone to use. It's perfect for all pyrography skill levels.

The nichrome wire points adjust their temperature with a tight tolerance for detailed work. The points heat and cool quickly allowing the user to interchange points without a wait time. The Creative Woodburner® can create precise detail, fine lines, variable textures, and beautiful coloration. This tool is perfect for hand lettering and intricate designs.

Includes:

- Variable Temperature Control unit with power indicator light and sleek design
- Ergonomic hand tool with comfort grip
- Adjustable stand
- Drawing Point
- Universal Shading Point
- Ball Point
- Round Shading Point
- Tweezer Tool for point removal
- Graphite Transfer Paper
- Inspiration guide with instructions

CREATIVE WOODBURNER® TECHNIQUES & USES

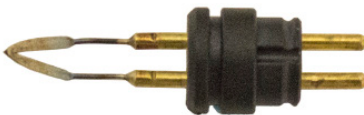

42058 Drawing Point

- General writing and drawing
- Universal use
- Great for straight and curved lines
- Rotate for darker/thicker lines

42059 Universal Shading Point

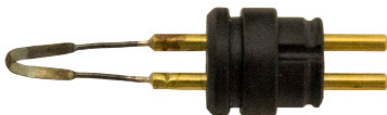

- General purpose shading point
- Works best for shading with straight edges or corners
- Rotate and use edge for ultra-fine lines
- Creates feather/fin shape when pressed to wood

42060 Ball Point

- Ball point works great for writing, dot shading, and lines
- Holds a consistent temperature, resulting in consistent burning
- Great for straight and curved lines
- Best for hand lettering and intricate designs
- Small and delicate

42061 Rounded Shading Point

- General purpose shading point
- Works best for circular shading
- Rotate and use edge for ultra-fine lines
- Creates a dark, thick line
