Old World Quality Meets American Ingenuity

1949 — THE YEAR IT ALL STARTED

Shortly after World War II, with the American art supply business still in its infancy, a Brooklyn-based painter named Norman Gulamerian set out to find affordable, high-quality linen canvas, but was unable to find any in the city. Recognizing that other artists must also be seeking fine linen, he joined his brother Harold in sourcing it directly from Belgian mills — and a legendary American brand was born.

A PAINT MILL GROWS IN BROOKLYN

Following the success of Utrecht's linen trade, Harold Gulamerian developed the first formula for Utrecht Acrylic Gesso. A revolutionary product, it introduced unprecedented simplicity to the canvas preparation process, while also making it possible to paint on a huge range of surfaces. The Gulamerian brothers then went on to open the Utrecht Paint Mill in the 1950s, where Harold used his mastery at developing and refining formulas to produce the original line of Utrecht Artists' Acrylics — one of the first acrylic lines in the world. This was soon followed by Utrecht Artists' Oils and Watercolors. These world-class art materials are still handcrafted in Brooklyn, New York, using only the finest pure pigments.

PROUD TO BE GOLD CERTIFIED

Today, Utrecht is recognized as a leading, locally based manufacturer and employer by the Brooklyn Chamber of Commerce. This top-tier certification is denoted by the Brooklyn Made Gold seal.
